# Wildflower Checklist

## Buffalo National River

The rugged region of the Buffalo national River contains over one hundred different species of trees and shrubs. The park trails offer some of the best places for viewing native trees and shrubs. This checklist highlights the more common species.

**Habitat Key**

The following symbols have been used to indicate the type of habitat where the plant can be found.

W - Woodlands  
 B - Bluff and/or rocky areas  
 S - Near streams  
 M - Moist areas  
 G - Glade and/or dry areas  
 F - Old fields and/or dry areas  
 V - Variety of habitats

Species	Blooms	Habitat
<b>Pink / Lavender Wildflowers</b>		
Hepatica Hepatica nobilis	Feb - Apr	B, W
Toothwort Dentaria laciniata	Feb - May	W, S
Spring Beauty Claytonia virginica	Feb - May	M
Ozark Wake Robin Trillium pusillum var. ozarkanum	Mar - May	W
Sand Phlox Phlox bifida	Mar - May	B
Wild Geranium Geranium maculatum	Apr - May	W, M, S
Lousewort Pedicularis canadensis	Apr - May	S, W
Blue Phlox {hlox divaricata	Apr - Jun	S, W, M
Robin's Plantain Erigeron pulchellas	Apr - Jun	W, M, S
Wood Vetch Vicia caroliniana	Apr - Jun	W, M
Violet Wood Sorrel Oxalis violacea	Apr - Jun	V
Milkweed Asclepias spp.	May - Jul	V
<b>Red Wildflowers</b>		
Fire Pink Silene virginica	Apr - Jun	M, W

Species	Blooms	Habitat
<b>Blue / Purple Wildflowers</b>		
Bluets Hedyotis crassifolia	Feb - apr	W, G

Species	Blooms	Habitat
<b>Green Wildflowers</b>		
Jack-in-the-Pulpit Arisaema atropurpureum	Mar - May	W
Green Trillium Trillium viridescens	Mar - May	W
Green Violet Hybanthus concolor	Apr - Jun	W
Rock Geranium Heuchera americana	Apr - Jun	B
<b>Brownish Wildflowers</b>		
Wild Ginger Asarum canadense	Apr - May	W
