TRANSLUCENT. PURE. STARTLING.

You have never experienced the color blue quite like the captivating blue waters of Crater Lake. Water so pure and so clear it absorbs every ray of the sun, reflecting only the deepest blue hues of the spectrum back to the surface. Often described as sapphire blue, this hallmark is how it came to be known as the “Gem of the Cascades.” It’s a magnificent scene that takes your breath away – no matter the season.

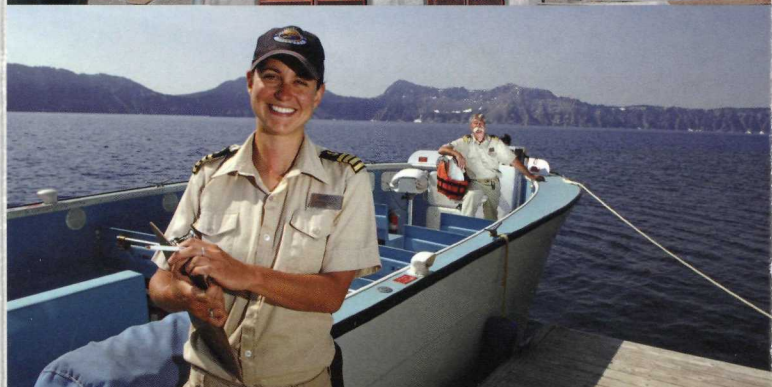

WINTER

Located at the southern tip of the Cascade Mountain Range and at an elevation of 7,100 ft., Crater Lake is without a doubt a snow park. Choose between the exhilaration of cross-country skiing along the caldera’s rim or the serenity of a peaceful snowshoe hike. Crater Lake in winter is unsurpassed.

SUMMER

Don’t be surprised to see snow in June. The 500 inches of annual snowpack takes a few weeks of summer sun before it melts away. When it does, enjoy a breathtaking drive around the lake, visiting more than 20 scenic viewpoints. Select a hike to match your mood. From the top of Watchman Overlook to the serenity of Annie Creek Canyon, there is a trail for you.

Cruise the volcano. Your appreciation for its depths is heightened looking up from within. Discover the natural history of Wizard Island and the geology of the awe-inspiring Phantom Ship as you glide over the blue waters.

Immerse yourself in the history of the magnificent Crater Lake Lodge. First opened to the public in 1915, the Lodge surrounds you in rustic elegance. Enjoy your morning coffee as the sun rises over the rim. Play board games with family and friends as you relax by a warm fire in the Great Hall. And end your day savoring the flavors of regional Northwest cuisine in the historic Lodge Dining Room.
