## CRATER LAKE OREGON

This area is one of the most spectacular in the world. The Indians called it Lao-Yaina, home of the God of earthquake and fire. The nearly 2000' deep lake fills the huge volcanic crater. The dark blue lake and sky and brilliant white snow covered peaks rimming the lake provide a magnificent setting for winter enjoyment. At 7100' elevation the rim has an average mid-winter snowpack of 10 - 30'. There are more than 50 miles/84 km of marked trails for the beginner to the expert and 250 square miles of national park land for wilderness skiing and snow camping. The Pacific Crest Trail through the park connects with Union Peak, the Sky Lakes and Mt. McLoughlin to the south and Mt. Thielsen, Diamond Lake and Three Sisters to the north through the Cascade Range.

Come and ski through this winter wonderland!

The Crater Lake Ski Shop is open from Thanksgiving through April (as snow lasts).

### Carry Tire Chains in Winter

Rim Drive to Hwy. 138 closed to vehicles in winter.
