

Mountain Biking

Death Valley National Park

Bicycles are only allowed on roads open to automobile traffic. Roads listed on old maps may no longer be in existence. Check at the Visitor Center for current road conditions.

Bikes **ARE NOT ALLOWED** to travel cross-country or on hiking trails (for example: the salt flats or Golden Canyon), but are allowed on the hundreds of miles of dirt and paved roads.

Avoid biking in canyons if there is a storm approaching. Sunglasses, first aid kit, proper clothing, and extra food and water are recommended for a safe trip.

Easy Roads
