## GENERAL INFORMATION

Mammoth Cave is one of America's most famous show places. Mammoth Cave National Park, established in 1941, comprises 51,000 acres of picturesque hills and valleys which are traversed by the Green and Nolin Rivers. More than 150 miles of explored corridors in Mammoth Cave are filled with spectacular features such as Echo River, Ruins of Karnak, Crystal Lake, Frozen Niagara, and the Snowball Dining Room. The cave is open to visitors every day of the year and the fascinating features are equally enjoyable in winter or summer, since the cave temperature is always 54 degrees Fahrenheit. The landscape of Mammoth Cave National Park is a continually changing panorama of beauty from the early spring blossoming of the Redbud and Dogwood to the brilliant color of autumn.
