1880 HISTORIC TOMBSTONE AZ.

"The Town Too Tough To Die"

TOMBSTONE

Truly a Historical American Landmark, Tombstone is America's best example of our 1880 western heritage.

The American West is well preserved in Tombstone's original 1880's buildings and artifacts featured in numerous Tombstone museums.

Silver is what brought people to this Apache infested land. Life was hard, but out of it grew a prosperous oasis and the fastest growing city between St. Louis and San Francisco in 1880.

Tombstone merchants take pride in keeping their town as authentic as it was 100 years ago, giving the millions of visitors a real look back into the wild west as it really was.

We invite you to visit an authentic 1880 western town (not a stage-prop town) featuring well known attractions like the O.K. Corral, Boothill, Bird Cage Theatre, Tombstone Epitaph, Crystal Palace Saloon and Big Nose Kate's Saloon where notables like Wyatt Earp, Doc Holliday, Bat Masterson, Johnny Ringo gathered.

The merchants of Tombstone hope that this brochure will be helpful when you visit "the town too tough to die."
