

OK CORRAL GUIDE MAP

The October 26, 1881, historic and controversial shoot-out at the OK Corral resulted in the deaths of three men and the severe wounding of two others in thirty seconds of gunplay that still echoes among these silent buildings.

The inevitable confrontation climaxed months of allegations, arrests, pistol whippings, threats and rumors. On one side were Ike and Billy Clanton, supposed rustlers and highwaymen, and Tom and Frank McLaury, hard-working ranchers; on the other side were Tombstone's Chief of Police, Virgil Earp, his brothers Morgan and Wyatt (a reputed Deputy U.S. Marshal), and their friend Doc Holliday.

In the bloody encounter, Frank and Tom McLaury and Billy Clanton died, and Virgil and Morgan Earp were seriously wounded.

For a detailed account of the fight, buy a copy of the 1881 Edition of the **TOMBSTONE EPITAPH**, on sale at the Corral, or Epitaph office.
