Fun for Everyone

STEHEKIN JOURNEY:

Will enable you to travel the beautiful Lake Chelan & Stehekin Valley to see all its splendor by air, the lake & river.

This 10 hour excursion will give you one & a half hours for lunch which you can obtain at the North Cascades Lodge Restaurant or bring your own picnic. Departure & arrival time will sometimes vary.

STEHEKIN RIVER FLOAT TRIPS:

Four Seasons tours are designed to provide an enjoyable experience for the individual. From drifting in the calm waters in an oar-controlled boat to the challenge of paddling through the rapids. Groups are kept small to assure a more personal atmosphere. This allows us to teach paddle technique and other water skills.

Our tours start with an introduction to your guides, a paddle and water safety course and a description of the route for the day. Our guides are experienced in all aspects of river wilderness travel, including water safety, first-aid and mountain survival techniques. They have a high degree of proficiency in boating skills and are excellent outdoor cooks.

WE PROVIDE:

A Shuttle from Stehekin or meeting place to launch site and return, professional guides, U.S. Coast Guard approved life vests, all rafting and special equipment, day bag, waterproof storage bags.

THINGS TO BRING:

Rain suit, warm sweater or jacket, hat with sun shade and strap, sandals or tennis shoes you can get wet, sun glasses, chain or strap for your eye glasses to help prevent loss, or an extra pair, sun screen and tan lotion, chapstick, shorts or swim attire and a dry change of clothes for after the tour.

RESPONSIBILITY:

Again, we emphasize that we take every precaution to provide a safe tour. While our safety record is excellent, you should understand that river running and lake travel involves some risk. Four Seasons Outfitters and its personnel shall not be held responsible for any injuries, damages, illness, losses, delays, or otherwise.

Stehekin River Float Trips operates under permit of the National Park Service.
