## CAPITOL REEF NATIONAL PARK

TORREY, UTAH

For 100 miles, the Waterpocket Fold spans Capitol Reef National Park, a spectacle of nature created more than 65 million years ago. Amid the towers, domes, and pinnacles here, this giant wrinkle in the earth's crust, with its layers of multicolored rock, is the star attraction.

Chimney Rock, the Castle, Twin Rocks and Capitol Dome are some of the most popular formations which can be reached via paved roads. For the adventuresome, the Cathedral Valley features awesome sandstone monoliths, 400 to 700 feet high.

### SPECIAL INFORMATION

Occasional thunderstorms may result in flash flooding. Do not park in a shallow lowland or attempt to drive in a gorge during a rain storm. • Superintendent, Capitol Reef National Park, Torrey, UT 84775 (801) 425-3791.
