### HOW BIG IS THE CINDER CONE

The Base Is Almost A Mile Wide

### HOW TALL IS THE CINDER CONE

1000 Ft

NEW IN 2016

International Dark Sky Park

FUN FACTS #12-c

The monument is located in the Colorado Plateau. Over the last 6 million years, this 1800-square-mile field has produced more than 600 volcanoes. Virtually every hill and mountain seen around here is a volcano, including the San Francisco Peaks. Sunset Crater Volcano is the youngest.
