

WHAT TO DO IF YOU FIND A FOSSIL

(It's as easy as 1, 2, 3!)

1. ***Do the Right Thing*** - **DO NOT REMOVE ANY FOSSIL FROM ITS ORIGINAL LOCATION.**
Leave all fossils where you find them.
2. Take photos of fossils (with something for scale), location, and surrounding area. Take GPS coordinates. Note trails, landmarks, directions.
3. Report the information to Park Rangers at the Ben Reifel Visitor Center!

Email info & photos to:
Badlands_Fossil_Finds@nps.gov

***As a part of our "Citizen Science" program,
YOU help rangers protect resources
for everyone to enjoy,
while also contributing to science!***
