Province Lands Visitor Center

Due to COVID-19, the visitor center is closed and no ranger-guided programs are being offered. Rangers are providing information services outdoors on the visitor center grounds. Check for details on arrival.

Just two miles from the tip of the Cape, experience outdoor observation decks with 360-degree dune and ocean views. The Province Lands Bicycle Trail and Race Point Beach are nearby.

Location: 171 Race Point Road,
Provincetown. Telephone: 508-487-1256

Superintendent's Message

When this edition of the Trip Planner went to print in June 2020, the Outer Cape, our nation, and the world were in the grip of the coronavirus pandemic. It was clear that COVID-19 would have dramatic and lasting impacts on our lives, and tragically, cause many deaths. Like your community, folks on the Outer Cape have had lives rearranged, businesses interrupted, and countless disappointments. We're grateful to all who have provided, and will continue to provide, critical services as we move past this crisis.

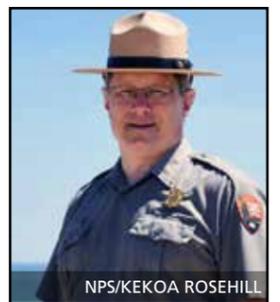

We are working through pandemic impacts to seashore operations for 2020 and want you to know that the health and safety of the public and our staff, and the protection of park resources are our highest priorities. Services may be curtailed, events may be cancelled, and facilities may be closed. This is a time to think beyond short-term inconveniences to longer term recovery goals. Caring for this special place is the responsibility of all of us. During your visit, please follow park rules and consider how you can lessen your impacts on resources and on other visitors. We ask that you recreate responsibly and leave the seashore in the same, or better condition than you found it.

As our nation faces not only this pandemic, but also crucial conversations about civil rights, national parks reflect our values and who we are as a people. Wander among massive redwood trees in California and consider the generosity of those who chose to donate these magnificent forests to our nation, rather than cut them for commercial gain. Witness the struggles for equality represented at Stonewall, Martin Luther King, Jr., and Women's Rights national historical parks. Find a perch in a wilderness park, gaze up at the night sky brimming with stars, and ponder our place in this vast galaxy. Visit the hallowed ground at the Flight 93 National Memorial or sites along the Trail of Tears and reflect on our nation's darker times. And as you walk for miles along the Great Beach, consider the foresight of those who set aside Cape Cod National Seashore for our enjoyment and for the enjoyment of all who come after us.

National parks are gifts that keep on giving. When we seek consolation, parks provide solace. When we need companionship, parks bring us together. When we must be alone, parks offer unbounded wilderness. And when we crave routine and a return to "normal," parks provide the repeated refrains of nature—the chorus of frogs on a spring night, waves crashing against the shore, dazzling sunrises and sunsets, and birds returning to nest and raise their young.

Award winning author and naturalist Terry Tempest Williams wrote, "The courage to continue before the face of despair is the recognition, in those eyes of darkness we find our own night vision." As we all move beyond the COVID-19 crisis, and as we reflect on the continuing struggle toward equality for all, may your visit to the national seashore help you find your night vision.

Brian Carlstrom, Park Superintendent

NPS/KEKOA ROSEHILL

Getting to the Park

Cape Cod National Seashore is located about 100 miles south of Boston using Route 3, and about 105 miles east of Providence using Interstate 195. Cape Cod is accessed using either the Sagamore Bridge at the northeast end of the Cape Cod Canal, or the Bourne Bridge at the southwest end of the Cape Cod Canal. A passenger ferry runs between Boston and Provincetown seasonally.

General Information Due to COVID-19, some information in this trip planner could not be confirmed at press time. Check upon arrival.

Fees are charged at national seashore beaches from late spring to early fall. Seasonal and annual passes are available for purchase at beach entrance booths during operating hours. **Passes are not issued or sold at seashore visitor centers.** Interagency passes are available for purchase online at store.usgs.gov/pass

Daily Beach Entrance Fees	
Private Vehicle	\$25
Motorcycle	\$15
Per Person	\$10
Groups	Inquire
Annual Passes	
Cape Cod National Seashore	\$60
Interagency (Multiple Federal Areas)*	\$80
Interagency Senior (Age 62+)*	\$20
Lifetime Passes	
Interagency Senior (Age 62+)*	\$80
Interagency Access Pass (Permanently Disabled)*	Free
U.S. Military Pass	
Annual Pass for US Military * Available to active US military members and dependents in the Army, Navy, Air Force, Marines, and Coast Guard, and Reserve and National Guard members. (Must be obtained in person by showing a Common Access Card [CAC] or Military ID [Form 1173].)	Free

* Photo ID required for pass use
Fees are charged and passes are available spring-fall.

Oversand Permits

Permits for driving on seashore oversand routes are required and available for purchase at Race Point Oversand Station in Provincetown. Oversand permits cannot be acquired for rental vehicles. Bird-nesting activity, weather, and impassable conditions due to changing beach conditions may require some route closures during the spring and summer.

Call 508-487-2100, ext. 0927, for permit and general information (April 15 through November 15). Call 508-487-2100, ext. 0926, for route closure information, or access the park's website for an up-to-date map of open and closed areas: go.nps.gov/cacoorv

Hunting and Fishing

Upland wildlife and migratory waterfowl may be hunted in certain areas in season. Federal, state, and local laws apply. Ask at visitor centers for a brochure about hunting.

Visit go.nps.gov/caco_hunting-fishing for more information and maps of open and closed areas.

Special-Use Permits

Special-use permits are required for events, weddings, and commercial filming. Information and applications are on the park's website at: go.nps.gov/caco_permits

Electric Bikes Now Allowed in the National Seashore

Electric bikes (e-bikes) are now permitted in the national seashore. E-bikes of less than 750 watts (1 h.p.) with fully operable pedals are allowed where traditional bikes are permitted. This includes the three paved bike trails—Nauset in Eastham, Head of the Meadow in Truro, and Province Lands in Provincetown. E-bicyclists using only power assistance—that is, riding an e-bike without pedaling—are only allowed to ride on roads where motor vehicles are allowed. They are not allowed on seashore bike trails. E-bicyclists, as well as bicyclists on traditional bikes, must regulate speed, follow posted speed limits, and take responsibility for the safe operation of bikes. Check page 4 for information about bike trail safety and regulations.

Safety and Park Regulations

National Park Service rangers provide assistance and enforce regulations that protect you and the national seashore.

Observe the following:

- Do not disturb natural or cultural features including wildlife; all are protected by federal law
- Do not feed wildlife.

- Keep trails, roadsides, and other areas clean.
- Use trash receptacles and recycle bins, or take trash with you.
- Glass containers, flotation devices (rafts, rubber tubes), snorkels, and masks are prohibited on lifeguard-protected beaches.
- Public nudity is prohibited.
- Surfing, windsurfing, and stand-up paddleboarding are permitted in waters outside lifeguard-protected areas.
- Possession or use of metal detectors is prohibited.
- Electric bikes of less than 750 watts (1 h.p.) operating under pedal power are allowed where traditional bikes are allowed. E-bikes using only power assistance are only allowed to ride on roads where motor vehicles are allowed. They are not allowed on bike trails.
- Sand collapses easily. Climbing steep slopes and digging deep holes above knee level are hazardous and are prohibited.
- Swim only where there are lifeguards, and obey

their directions. Lifeguard-protected beaches are marked with signs.

- Be alert for rip currents and underwater obstacles. Keep children within reach.
- Use sunscreen to avoid sunburn. Use a waterproof sunscreen if you intend to go swimming.
- Smoking, including electronic cigarettes, is prohibited on protected swimming beaches when lifeguards are on duty.
- Drones are prohibited in the national seashore.
- Biking is prohibited on seashore beaches.
- Kite surfing is permitted at Duck Harbor on the bay side in Wellfleet, and in a posted 1¼-mile section of ocean beach between north of Coast Guard and Nauset Light beaches in Eastham.

For more information about park regulations, check the Superintendent's Compendium, available at: go.nps.gov/caco_compendium

Beach Safety

Beach warning flags:

During the summer a colored flag is flown at the head lifeguard chair. A sign at each beach describes the meaning of each color.

GREEN: Low Hazard. Calm Conditions.

YELLOW: Medium Hazard. Moderate Surf and/or Currents.

RED: High Hazard. High Surf and/or Strong Currents.

RED WITH NO-SWIM SYMBOL: Water Closed to the Public

PURPLE: Dangerous Marine Life.

PURPLE WITH SHARK: Caution! White Sharks Feed in These Waters.

Placing your beach gear:

Do not settle in front of an on-duty lifeguard chair or one that is soon to be opened. This area must be kept clear for equipment. Stay out of this area to avoid an accident or delay a rescue.

When you hear a whistle:

Lifeguards will signal swimmers when they are in or approaching a hazardous area or because they are swimming too far out for adequate supervision.

Rip currents are dangerous:

A rip current can carry a swimmer out from shore and be difficult to swim against. Do not panic if you get caught in one. Do not tire yourself out trying to swim against it. Normally, they are not wide. Swim parallel to the shore a short distance, then swim to the shore out of the current. Look for the "Break the Grip of the Rip" sign located at each beach.

COURTESY ELYCE RIVERA

Accessibility

Park trails near Doane Rock in Eastham and the Marconi Station Site in Wellfleet have been surfaced to accommodate wheelchairs. The Buttonbush Trail is available for people with impaired vision. Some park publications also have large-print versions. The park brochure is available in a free audio described format for Apple devices on the App Store, and for Android Devices on Google Play. Park films have captions and audio descriptions. Coast Guard and Herring Cove beaches provide accessible parking, restrooms, changing facilities, and beach wheelchairs. Herring Cove Beach features showers that accommodate wheelchairs. Coast Guard Beach in Eastham, and Race Point and Herring Cove beaches in Provincetown have Mobi-Mat access for wheelchairs.

Beaches

Coast Guard Beach, Eastham

Located at the end of Doane Road. Summer access via shuttle from Little Creek parking area. Coast Guard Beach is popular with families. Access is relatively gentle, and beach wheelchairs and Mobi-Mat are available in summer. Nauset Marsh and the historic Coast Guard station (not open to the public) are located nearby. The Nauset Bicycle Trail terminates at Coast Guard Beach. **Shuttle operation is uncertain in 2020 due to COVID-19.**

Nauset Light Beach, Eastham

Located 1 mile north of Coast Guard Beach on Ocean View Drive at the intersection of Cable Road. This broad, sandy beach is situated in front of a steep glacial scarp. A hard-packed path leads from the parking lot down to the beach. Nauset Light and the Three Sisters Lighthouses are located nearby.

Marconi Beach, Wellfleet

Located at the end of Marconi Beach Road. This beach is situated in front of a steep glacial scarp and has stair access only. It is popular with surfers. The historic Marconi Station Site and the Atlantic White Cedar Swamp Trail are nearby.

Head of the Meadow Beach, Truro

Located at the end of Head of the Meadow Road. Access to this broad, sandy beach is over a tall dune. Waves are typically gentler here than at Marconi and Nauset Light beaches. This beach often has seaweed and large populations of seals nearby. The Head of the Meadow Bicycle Trail runs between this beach and High Head.

Race Point Beach, Provincetown

Located at the end of Race Point Road. Access to this beach is over a tall dune. Mobi-Mat is provided. This is a popular destination for whale watching from shore and for sunset viewing. Old Harbor Life-Saving Station and Province Lands Visitor Center are located nearby. The Province Lands Bicycle Trail has a spur to Race Point Beach.

Herring Cove Beach, Provincetown

Located on Province Lands Road by the end of Route 6. This beach has easy access and fully accessible facilities. Beach wheelchairs and Mobi-Mat are available in summer. Gentle surf makes this beach popular with families. It's known for its views of Race Point Light, sunsets, and spring whale watching. There is a seasonal snack bar, and free concerts are held during the summer. The Province Lands Bike Trail has a spur to Herring Cove Beach.

NPS/ROBBY MCQUEENEY

Beach Parking Lot Trends

Coast Guard Beach/Little Creek Tram, Eastham: (368 spaces) Tram parking area fills on most holiday weekends; moderate turnover. Beach access via Little Creek Tram and parking area, a half-mile away. Drop-off and pickup of passengers and belongings at the beach are PROHIBITED. Limited handicapped parking (state-issued plate or placard required) at the Coast Guard station parking area. **Shuttle operation is uncertain in 2020 due to COVID-19.**

Nauset Light Beach, Eastham: (98 spaces) Public parking area fills by 10 am daily during the summer; minimal turnover. Drop-off and pickup of passengers and belongings at the beach are PROHIBITED.

Marconi Beach, Wellfleet: (530 spaces) Parking area fills during weekends and some weekdays during July and August; moderate turnover.

Head of the Meadow Beach, Truro: (285 spaces) Parking area rarely fills.

Race Point Beach, Provincetown: (360 spaces) Parking area rarely fills during June and July. When the parking area does fill, it is usually 1 to 2 hours after Herring Cove fills. Access is also available on the Provincetown/North Truro Shuttle with \$10 park entrance fee. Additional information about the Provincetown/North Truro Shuttle is available on page 8.

Herring Cove Beach, Provincetown: (578 spaces) Parking area rarely fills in June. Parking area fills occasionally in July and August; moderate turnover after 1 pm. Access is also available on the Provincetown/North Truro Shuttle with \$10 park entrance fee. Seasonal snack bar. Additional information about the Provincetown/North Truro Shuttle is available on page 8.

Sharks

NPS/BILL FISHER

Cape Cod's waters are part of a natural and wild marine ecosystem with a rich diversity of sea life, including sharks. Seals are the major prey species for the great white shark, and as the seal population increases, great white sharks have become more numerous. In recent years there have been confirmed reports of great white sharks feeding on seals close to shore as well as great white shark sightings from spotter planes flying along the Outer Cape near swimming beaches.

People have been seriously injured and killed by white sharks along this coastline.

Be shark smart. To stay safe and to protect wildlife:

- Be aware sharks hunt for seals in shallow water.
- Stay close to shore where rescuers can reach you.
- Swim, paddle, kayak, and surf in groups. Don't isolate yourself.
- Avoid areas where seals are present.
- Avoid areas where schools of fish are visible.
- Avoid murky or low-visibility water.
- Limit splashing.
- Follow all signage and flag warnings at beaches and instructions of the lifeguards.

Shark sightings:

- Notify a lifeguard if a shark is spotted.
- Water will be temporarily closed to recreational activities.
- Beachgoers will be notified when they can reenter the water.

Seals

COURTESY PROVINCETOWN CENTER FOR COASTAL STUDIES, TAKEN UNDER NOAA PERMIT #774-1875

Once hunted to near extinction, seals are now protected under the Marine Mammal Protection Act and National Park Service regulations. They are often spotted swimming along the Outer Beach, and at some locations, hundreds of seals may haul out at low tide to rest on sandbars.

The heads of gray seals have a horse-like appearance. Males are dark brown, gray, or black with small, lighter spots. Females are tan or light gray with darker spots. Males may be 8 feet long and weigh over 700 pounds. Females reach 6.5 feet and weigh up to 450 pounds. Harbor seals have small heads, very large eyes, and a face that resembles a cocker spaniel. They are about 5 feet long and weigh 250 pounds. They have leopard-like spots on dark gray or tan coats.

Seals are semi-aquatic and often spend part of each day on land. Young seals may haul out on land to rest for up to a week. Many seals have scratch marks and scars from hauling out; this is no cause for alarm. Seals consume a variety of fish, shellfish, and crustaceans. They do not eat on land.

It is against the law to disturb or harass seals. To protect the seals and avoid a fine or jail time:

- Remain at least 150 feet from seals and observe with binoculars. Move farther back if seals begin vocalizing or entering the water.
- Keep pets on a leash. This is a national seashore regulation. Dogs are likely to startle a resting seal, causing an aggressive, defensive response that might injure your pet, you, or the seal.
- Do not approach swimming or resting seals by boat or on a board. Kayaks, canoes, and stand-up paddleboards can elicit an alarm response and cause seals to rapidly enter the water.
- Do not swim among seals. Seals can scratch and bite. Also, they are an important prey species for great white sharks that inhabit these waters.
- Seals that are on land are likely resting and warming themselves. Splashing or pouring water on them is a form of harassment.

If you see an entangled, sick, or injured seal, call 866-755-6622 or 508-743-9548.

Shorebirds

Piping plovers (*Charadrius melodus*) are small shorebirds that winter along the southeast coast of the United States. Each spring, they return to Cape Cod to establish territories and form pairs. Starting in April and extending into summer, plovers build

NPS/KEEGAN BURKE

their nests and lay eggs above the high-tide line, usually in front of the dunes. Their nests, called "scrapes," are little more than shallow depressions made directly in the sand.

The female typically lays four eggs that the male and female take turns incubating. The eggs hatch in about 25 days, and within hours of hatching, the tiny, downy chicks begin learning how to search for food. Plovers feed by running and darting to catch insects, amphipods, and other invertebrates found on the surface of the sand and mudflats or living amid the washed-up seaweed and marsh grass at the high-tide line.

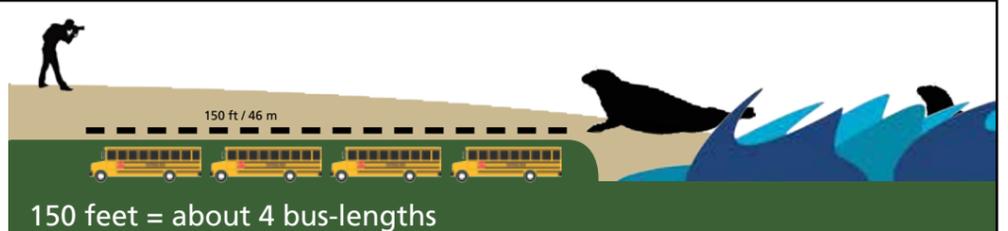

Piping plovers blend into their surroundings to avoid detection by predators. When real or perceived predators approach too closely, an adult bird will run down the beach dragging its wing, as if injured, or call loudly as a distraction. Although this behavior may prevent eggs and chicks from being eaten, it leaves them vulnerable to cold or over-heating. For chicks, the stress of running for cover burns calories needed for growth and maturation.

Sharing the beach with shorebirds is easy if you know how:

- Follow staff directions and posted signs.
- Comply with dog restrictions. Seashore regulations require that dogs be on a leash no more than 6 feet long at all times.
- Don't feed wildlife or leave food scraps or trash on the beach; this attracts predators.
- Follow established pedestrian detours. In most cases you'll be able to continue your beach walk without disturbing birds.
- Set up your beach blanket several meters away from posts and strings (symbolic fencing) placed along nesting habitat. The prolonged presence of people near these areas causes disturbance. If possible, set up in an area that does not have symbolic fencing.
- Be aware of park regulations about boat landing and kite flying. If you're uncertain, check at a park visitor center or the Race Point Oversand Station.
- Bring your binoculars and field guide to observe and enjoy these birds from a distance.

Sometimes the best relationship is a long-distance relationship

To keep wildlife wild, and for your safety, keep back at least 150 feet. Disturbing seals is against federal law.

Hiking and Biking Trails Detailed brochures available at the visitor centers.

Trail Name	Trailhead Location	Description	Difficulty	Pets
Fort Hill Trail 1-mile loop	70 Fort Hill Road in Eastham.	This loop trail crosses open fields and connects with the Red Maple Swamp Trail.	Easy; solid surface; some log steps on slopes.	No pets.
Red Maple Swamp Trail 0.8-mile round trip	Accessed from the Fort Hill Trail and Hemenway Landing in Eastham.	Boardwalk sections of this trail meander through the heart of the Red Maple Swamp.	Moderate; boardwalk.	No pets.
Nauset Marsh Trail 1.3-mile loop 1.5-mile spur	Adjacent to the Salt Pond Visitor Center amphitheater, 50 Nauset Road, off Route 6 in Eastham.	This trail winds along the edge of Salt Pond and Nauset Marsh, crosses fields, and returns to the Salt Pond Visitor Center through a recovering forest. There is a 1.5-mile spur connecting to Coast Guard Beach.	Easy; some log steps; moderate grade.	No pets.
Buttonbush Trail 0.3-mile loop	50 Nauset Road, off Route 6 in Eastham.	This loop trail includes interactive features great for kids and involves all the senses as it winds through forest.	Easy; some log steps on the second half of the trail; moderate grade.	No pets.
Doane Trail 0.6-mile loop	One mile east of Salt Pond Visitor Center on Nauset Road in Eastham.	This paved, wheelchair-accessible loop trail winds through an emerging pine and oak forest. Two-hour parking limit.	Easy; wheelchair-accessible grade (also good for strollers).	No pets.
Atlantic White Cedar Swamp Trail 1.2-mile loop	195 Marconi Station Road in Wellfleet.	This trail leads to a boardwalk that winds through the picturesque Atlantic White Cedar Swamp.	Moderate; some steep stairs; return route is 0.5 miles in soft sand; a portion of this trail is boardwalk.	No pets.
Great Island Trail 3.9 to 8.8-mile round trip	Corner of Griffin Island and Chequessett Neck roads in Wellfleet.	This trail follows sandy stretches between the elevated heights of Great Island and Great Beach Hill.	Difficult; mostly soft sand; portions are submerged at high tide.	Limited leashed pet areas.
Pamet Area Trails 0.6 miles each way, plus extensions	111 North Pamet Road in Truro.	Bearberry Hill overlooks offer spectacular views of the Pamet landscape, with views of the Atlantic and the glacial terrain of the Pamet River valley.	Moderate; log steps; steep grade to overlook. No restrooms.	No pets.
Small's Swamp Trail 0.6-mile loop	Turn right off Route 6 at the Pilgrim Heights area sign. Walks begin at the covered shelter in Truro.	Former farmland. Gradually, the soil gave out, farms were abandoned, and the landscape began its slow recovery.	Easy; some log steps; moderate grade; short boardwalk surface.	No pets.
Pilgrim Spring Trail, 0.7-mile loop		This short loop trail winds through the recovering pine and oak forest.	Easy; some log steps; moderate grade.	No pets.
Beech Forest Trail 1-mile loop	36 Race Point Road in Provincetown.	Journey into the heart of a picturesque beech forest, and enjoy great birding opportunities.	Easy; extension loop has steep log steps; some soft sand.	No pets.
Nauset Bicycle Trail 1.6 miles	50 Nauset Road, off Route 6, Doane picnic area (2-hour parking), or Coast Guard Beach in Eastham. (seasonal fees).	This bike path connects the Salt Pond Visitor Center, Doane picnic area, and Coast Guard Beach.	Intermediate; some hills; paved surface.	Leashed pets allowed November 1 -April 30.
Head of the Meadow Bicycle Trail 2 miles, plus .8 mile connector	End of High Head Road in Truro (2-hour limit), or Head of the Meadow Beach (seasonal fees).	This 2-mile bike trail connects the dirt parking lot at High Head Road to Head of the Meadow Beach. A .8 mile connector trail leads to Coast Guard Road, Truro.	Easy; some surfaces may be bumpy, use caution. May encounter biting insects.	Leashed pets allowed year-round.
Province Lands Bicycle Trail 5.45-mile loop 1.1-mile spur 0.5-mile spur 0.25-mile spur	Province Lands Visitor Center, Herring Cove Beach (seasonal fees), Race Point Beach (seasonal fees), or the Beech Forest parking lot in Provincetown.	This trail loops around the Province Lands, passing through pine forests, sandy dunes, and low-lying cranberry bogs. There are connections to both Herring Cove (1.1-mile spur) and Race Point (0.5-mile spur) beaches, as well as Bennett Pond (0.25-mile spur).	Advanced-intermediate; steep hills, sharp turns, tunnels.	Leashed pets allowed November 1 -April 30.

NPS/ROBBY MCQUEENEY

Trail Safety and Regulations

Hiking:

- There are trail guides available at most trailheads.
- Check the weather forecast before you go out. Weather can change quickly.
- Wear proper footwear that is comfortable and durable.
- Tell somebody your hiking plans. If hiking in a group, designate a meeting location in case you get separated.
- Bring water and food.
- Stay on the trail.
- On bike trails, keep to the right; be aware of bicyclists who are using the trail as well.
- Mosquitoes and ticks are prevalent and capable of transmitting serious diseases. Use repellent and wear long pants and sleeves to reduce exposure. Remain on trails to avoid ticks. When mosquitoes are present, curtail evening activities to reduce exposure. Heed posted advisories.
- Pets are never allowed on any of the self-guided hiking trails except where indicated under the trail description.

Bicycling:

- Always wear a helmet when riding a bike. Massachusetts law requires all persons 16 years of age and under to wear a helmet.
- Always ride single file to the right.
- Announce yourself when passing other trail users from behind; pass on the left.
- Don't speed.
- Electric bikes of less than 750 watts (1 h.p.) operating under pedal power are allowed where traditional bikes are allowed. E-bikes using only power assistance are only allowed

- to ride on roads where motor vehicles are allowed. They are not allowed on bike trails.
- Be alert for hills, sharp turns, and other users.
- Always check brakes, gears, and steering.
- Beware of trail hazards, which could include: sand, standing water, bumps in the pavement, and low-hanging branches.
- Walk bicycles through tunnels and underpasses.
- Biking off-trail is prohibited except on designated fire roads.
- Bicycles are never allowed on any of the self-guided hiking trails.
- Bicycles of any type are not allowed on beaches.

Pets:

- Pets must be on a leash no longer than 6 feet at all times and are permitted only in the following locations:
- All fire roads within Cape Cod National Seashore;
 - Head of the Meadow Bicycle Trail year round and Province Lands and Nauset bike trails, November 1-April 30;
 - Freshwater ponds (beaches and water),
 - Cape Cod National Seashore ocean beaches except as follows:
 1. During the summer, pets are not permitted on lifeguard-protected beaches. Passing through these areas of the beach is permitted.
 2. During shorebird nesting, staging, and migrating periods, pets are not permitted in posted locations. Passing through these areas is prohibited.

COVID-19 Response

Several operations at Cape Cod National Seashore have been adjusted in 2020 due to COVID-19. The highest priorities for the National Park Service are to help reduce the spread of illness and protect the safety of the public, staff, partners, and volunteers. Decisions

about operational changes are a result of thorough risk analysis. While seashore staff are engaging with the public, note that they will maintain a distance of at least six feet; please maintain your distance from staff and from each other. Thank you for your understanding during this challenging time. While at the national seashore, please follow this guidance from the Centers for Disease Control:

- Practice social distancing. Maintain at least six feet of distance between you and others. At the beach, place blankets at least 12 feet apart to allow space for standing and walking through.
- Wear a face covering when social distancing cannot be maintained.
- Wash your hands often with soap and water for at least 20 seconds. Carry hand sanitizer.
- Cover your mouth and nose when you cough or sneeze.
- Stay home if you feel sick.
- Avoid touching eyes, nose, and mouth.

For the most up-to-date information about the national seashore's COVID-19 response and operations and visitor amenities that may be impacted, visit www.nps.gov/caco/planyourvisit/conditions.htm

Historic Buildings Due to COVID-19, historic buildings are closed in 2020. The grounds are open for visiting.

NPS/BRENT ELLIS

Penniman House Eastham

70 Fort Hill Road. The Penniman House, completed in 1868, was styled after the French Second-Empire period. It included every known comfort of the day and many innovative ideas. The Captain Edward Penniman family enjoyed this fine home for nearly 100 years. Seasonal tours. Limited parking.

NPS

Pamet Cranberry Bog House Truro

86 North Pamet Road. Originally constructed around 1830, the Bog House is located among former cranberry bogs in the Pamet Valley. It supported cranberry harvesting that occurred there until the 1960s. Views of the house can be seen from atop Bearberry Hill. Limited parking.

NPS

Atwood-Higgins House Wellfleet

269 Bound Brook Island Road. The Atwood-Higgins House is a fine example of a properly framed Cape Cod cottage, which grew from a half-house in the early 1700s to a full-Cape with eight rooms by the 19th century. The oldest house owned by the national seashore, it is flanked by an eclectic collection of later-vintage buildings. Seasonal tours. Limited parking.

NPS

Old Harbor Life-Saving Station Provincetown

191 Race Point Road. At Old Harbor, the National Park Service interprets the dramatic story of shipwrecks and the role of the U.S. Life-Saving Service in preventing shipwrecks and performing rescues. Seasonal open houses. *Beach fee may apply.*

NPS

Highland House Truro

27 Highland Light Road. The Highland House Museum occupies the Highland House, originally a hotel built in 1907. A visit provides insight into the people of Truro dating back to early European settlers and the native people who preceded them. 508-487-3397. *Open seasonally and operated by the Truro Historical Society.* www.trurohistorical.org

Area Lighthouses Map of lighthouse locations located on page 8. Due to COVID-19, lighthouses are not open in 2020. The grounds are open for visiting.

NPS/KATIE TRUDEAU

Race Point Light, Provincetown

The first Race Point Light was erected in 1816. The current lighthouse and keeper's house date from 1876. *Grounds accessible by hiking from Race Point Beach or Hatches Harbor.* www.racepointlighthouse.org

NPS/KEKOA ROSEHILL

Long Point Light, Provincetown

This light at the entrance to Provincetown Harbor was first lit in 1827. The lighthouse and keeper's cottage were rebuilt in 1875. *Not open for tours. Caution: Hazardous conditions possible along breakwater. Summer boat service from MacMillan Wharf.*

NPS

Nauset Light, Eastham

Nauset Light was built as one of the Chatham Twin Lights in 1877 and was relocated to Eastham in 1923. The tower and keeper's house were moved back from the eroding shoreline to this site in 1996. *Open seasonally and operated by the Nauset Light Preservation Society.* www.nausetlight.org

COURTESY DAVE QUINCY

Chatham Light, Chatham

Chatham Light was built in 1808 as two brick towers with a keeper's house. Two lights were used to distinguish it from the single light at Truro's Highland Light. It is maintained by the United States Coast Guard.

NPS/KEKOA ROSEHILL

Wood End Light, Provincetown

A twin to Long Point Light guarding the entrance to Provincetown Harbor, Wood End Light is located toward the end of the breakwater. *Not open for tours. Caution: Hazardous conditions possible along breakwater. Summer boat service from MacMillan Wharf.*

NPS/KEKOA ROSEHILL

Highland Light, North Truro

Also known as Cape Cod Light, Highland Light was the first light seen on a voyage from Europe to Boston. In 1798, Highland was the first Cape Cod lighthouse built. The tower is closed for rehabilitation until 2021. The Keeper's House store and exhibits are open seasonally and operated by Eastern National, Inc. www.highlandlighthouse.org.

NPS/CHARLOTTE HECHT

Three Sisters, Eastham

The original brick Three Sisters were built in 1838 to differentiate the location from Chatham and Highland. The brick towers were threatened by erosion, and these wooden ones replaced them in 1892, and were eventually relocated here in the 1980s. Located on Cable Road, a short walk from Nauset Light Beach. Limited parking at Three Sisters. *Seasonal tours.*

USFWS

Monomoy Point Light, Chatham

The first Monomoy Light was erected in 1823 and rebuilt in 1849 with cast-iron plates lined with brick. Monomoy is now part of the Monomoy National Wildlife Refuge of the US Fish & Wildlife Service. The island is accessible only by boat at the end of 5-mile-long South Monomoy Island.

Reduce, Reuse, Recycle!

NPS/SUE MOYNIHAN

Water Bottle Filling Stations

Help us make a difference—please refill your water bottle at one of our many filtered bottle filling stations located throughout the national seashore.

Thank you to CARE for the Cape and Islands and Friends of the Cape Cod National Seashore for funding the purchase of many of the park's filling station.

Note: The filling station at Salt Pond Visitor Center is available all year. Other stations are available from late spring to early fall.

The availability of drinking water may be impacted by COVID-19 during 2020. Bring your own water just in case.

Do Your Part to Keep Our Beaches Clean

Cape Cod National Seashore is cutting back on waste with our beach recycling bins. Recycling reduces our pollution and greenhouse gas emissions.

Do your part and recycle. Recycling bins are now located at all beaches.

Get Involved

Friends of the Cape Cod National Seashore

Love the Seashore? Join the Friends of the Cape Cod National Seashore

Whether you are here for a day or consider yourself a year-rounder, the richness of the Cape Cod National Seashore will touch your heart. The sparkle of sunrise on Great Beach waters, the peace of kayaking, or considering the migration of the smallest and largest creatures will stay with you.

Friends of the Cape Cod National Seashore (FCCNS) shares your sense of joy and wonder. For more than 30 years, FCCNS has committed money, brainpower, and energy to this special place. If you have enjoyed the ponds within the park, Eastham's Penniman House, the Red Maple Swamp Trail, or Provincetown's Old Harbor Life-Saving Station, you have benefited from our members' donations and our fundraising within the community of people who care about the national seashore.

The challenges ahead include the effects of climate change and maintenance needs that outstrip federal budget allocations. FCCNS approaches these challenges strategically, viewing them as opportunities to make a difference in a place we love. FCCNS welcomes and appreciates your financial commitment. In addition, you may want to work in the park. Volunteer opportunities abound. Some members clear trails or join in the hard work of controlled burns, eliminating invasive brush and trees. Their labors take them all over the park!

Others develop interests in particular aspects of the seashore. For example, volunteers have developed expertise in natural history and seal behavior in response to the presence of seals hauling out at low tide. The sharing of that knowledge with the public leads to seal viewing experiences that are safe for both the seals and the visitors they attract.

We also recruit volunteers with skills that strengthen FCCNS, including community outreach, writing, and fundraising.

Whatever the task, it embodies the FCCNS mission: *To support the educational, environmental, cultural, recreational, and scientific purposes of the Cape Cod National Seashore.*

Join us!

FCCNS is the not-for-profit 501 (c) (3) fundraising partner of the Cape Cod National Seashore. Visit fccns.org

Additional Park Partners

A private, nonprofit organization that provides quality educational products and services to park visitors. Proceeds are donated directly to Cape Cod National Seashore to support interpretive and educational programs.

The mission of the CCS is to understand and protect our coastal environment and marine ecosystems. Located in Provincetown, CCS collaborates with the national seashore on research projects that help park managers better understand and protect park resources. www.coastalstudies.org

Payomet is one of Cape Cod's leading presenters of performing arts, including professionally staged theater productions. Located at the Highlands Center in Truro, Payomet's mission is to produce exciting professional live music, circus, theatre, and humanities events rooted in strong social values. www.payomet.org

This national service movement engages Americans of different ages and backgrounds in service to our nation's communities. Focus areas include education, literacy, public safety, the environment, and disaster response. Corps members at the national seashore support park planning and resource protection. www.americorpscapedod.org

Many other partners support Cape Cod National Seashore. These include organizations that preserve historic buildings and provide public access, such as Truro Historical Society, Nauset Light Preservation Society, Cape Cod Modern House Trust, Provincetown Community Compact, Peaked Hill Trust, and the Outer Cape Artist in Residency Consortium.

Become a Seashore Volunteer!

VIPs—Volunteers in Parks—bring passion and expertise to nearly all national seashore operations, from trail maintenance and resource protection activities, to engaging the public at historic buildings and visitor center information desks. Meet new people, gain insights into the national seashore, and participate in meaningful activities that benefit the public and park resources.

- Assist visitors with trip planning at Salt Pond and Province Lands visitor centers.
- Prune along park trails and join organized trail improvement projects.
- Monitor and help protect nesting shorebirds.
- Introduce visitors to maritime, whaling, and early Cape Cod history during historic building tours and open houses.
- Document seasonal changes in the natural world to help build a phenological database.
- Photo-document seashore activities, facilities, and resources to build a digital image library.
- Tend to native gardens.

To get started, visit go.nps.gov/cacovip

Calling All Kids - Become a Junior Ranger!

Youngsters between the ages of 5 and 12 are invited to join a growing group of young people interested in learning about the national seashore and ways they can help protect it in the future. To get started, stop by Salt Pond or Province Lands visitor centers to obtain free program materials. Requirements to earn a patch or badge include attending a ranger-guided activity (or substitute activity from fall through spring) and completing activities designed to build understanding of the national seashore's natural and cultural resources. It may take a day or more to complete the program requirements.

Rules of the Road

MOTORIST WARNING

Wear your seat belt. It's the LAW. Massachusetts state law provides pedestrians the right of way in a crosswalk.

Be aware of pedestrians, bicyclists, and other park users, and share the road.

Public Transportation

Cape Cod Regional Transit Authority (CCRTA)

The *Flex* bus picks up and drops off passengers at designated stops and also “flexes” off its route up to ¼ of a mile by reservation.

The *Flex* bus travels from Brewster on Route 6A, down Route 6 through the towns of Orleans, Eastham, Wellfleet, and Truro, to Provincetown. It connects to the *H2O Line* at Stop & Shop, Orleans, and in the summer, to the Provincetown/North Truro Shuttle at Highland Road, Truro, and Stop & Shop in Provincetown, with Hyannis as its destination.

Flex also connects with the Plymouth & Brockton bus service to Boston.

Fares: \$2 one way per person for adults and youth; \$1 for 60 and older, and for people with disabilities. Day and monthly passes are available.

Website for schedules: www.capecodtransit.org

Cape Flyer Bring your bike for FREE! Weekends from Memorial Day through Labor Day, travel comfortably by train from Boston's South Station to Hyannis. See more at www.capeflyer.com.
