WHILE YOU'RE IN WHITE'S CITY

A complete evening of entertainment awaits you in White's City. Each evening at dusk, during the summer season, see the bat flight and hear the informative talk on bat lore, given by a Park Naturalist, from the natural entrance. There is no charge, and you will remember it as one of the most phenomenal experiences of your lifetime. Following the bat flight, you are invited to hear Charlie White's famous talk given nightly in the lecture room of the Museum building. The talk is centered around the history of Carlsbad Caverns, its discovery and exploration, and the unusual growth of White's City. This is the original "Talk on the Caverns" and is personally narrated by Charlie White. For lots of fun, wit and humor, don't miss this talk — free to all guests of White's City.
