

DISCOVER Bats

©TIM KRYNAK

**Go to Stanford Trailhead
on a summer evening.**

Try it!

 Look for old buildings, loose tree bark, high branches, and deep cracks where bats can sleep during the day. Where would you hide?

 Act like roosting bats. Huddle up tightly with family and friends.

©TIM KRYNAK

 Pretend to be a hungry bat. As you fly, net tasty insects with your wings and pop them into your mouth.

 Count bats flying at twilight. Hint: Watch Stanford Barn!
