	points of interest		DSR		IPR
	roads		RT		APR
	approximate		RM		PCRUB
	water or shoreline, approximate		HRSYG		PVT
	map boundary				Land

This map is an overview of compiled geologic data prepared in February 2014 as part of the NPS Geologic Resources Inventory. It is not a substitute for site-specific investigations.

The source map used in creation of the digital geologic data was:  
 Waara, R.J., Patterson, J.M., Estep, A.J., Atkinson, A.J., Patterson, M.E., Wither, B.D., Estevanez, M.E., McManus, L.T., and Brandt, M.E. 2010. Dry Tortugas National Park Benthic Map (scale 1:2000). National Park Service South Florida/Caribbean Network.

For map development information refer to:  
 Waara, R. J., J. M. Patterson, A. J. Atkinson, and A. J. Estep. 2011. Development and policy applications of the 2010 benthic habitat map for Dry Tortugas National Park. Natural resource technical report NPS/SFCN/NRTR-2011/474. National Park Service, Fort Collins, Colorado.

As per source map scale and U.S. National Map Accuracy Standards, geologic features represented here are within 1 m (3 ft) (1:2,000 scale data) of their true location.

All digital geologic data and publications prepared as part of the Geologic Resources Inventory are available at the NPS Integrated Resource Management Applications Portal (IRMA): <https://irma.nps.gov/App/Reference/Search>. Enter "GRI" as the search text and select a park from the unit list.
