

## Points of Interest Along the Going-to-the-Sun Road

Driving the Going-to-the-Sun Road is a highlight of any park visit. Because of the steep, narrow nature of the road vehicle length limitations are in effect on the 24-mile section between Avalanche Campground (#5), west of Logan Pass, and Sun Point (#12) to the east.

A maximum vehicle length of 21 feet and a maximum width of 8 feet, including mirrors, is allowed on the Going-To-The-Sun Road.

All other vehicles must use an alternate route. Shuttle service and trailer parking are available.
