## MAKE US YOUR VACATION HEADQUARTERS

Bullfrog can be more than your headquarters for water sports. Make us your home base for one-day trips into some of America's most scenic grandeur. Bullfrog topography and climate is "high desert." Only 26 miles away, however, in the Henry Mountains, at 10,500 feet, is government maintained and pine-dotted Starr Springs picnic grounds. Foothills of the Henrys begin virtually at our doorstep, and contain miles of excitement for four-wheel driving, many types of wild game and one of the last wild buffalo herds in America. Some mileages, via paved roads from Bullfrog to nearby outstanding Utah attractions:

Attraction	Approx. Miles	Attraction	Approx. Miles
Capitol Reef National Park	110	Canyonlands National Park	200
Arches National Park	180	Bryce National Park	240
Zion National Park	300	Dixie National Forest	150

In the boating-fishing section of this brochure we describe our boat docking, servicing and bait and fishing facilities. In addition to groceries, ice and fuel, we are well stocked with film, camping supplies, souvenirs, magazines, etc. And count on us for some friendly, free advice on lake boating and fishing conditions and other facts about Lake Powell Country, or hire one of our guides.

## YOU'LL LIKE OUR WEATHER

At 3700' elevation our climate is relatively mild, yet seasons are discernable. Spring brings varied winds and boaters are advised to "hole up" if breezes turn gusty in mid-lake. Water is usually cool to cold through May due to Colorado and Utah mountain runoff. Camping and hiking is excellent. Plants spring to life. Summer temperatures rarely reach 100. Water warms for swimming and skiing. Low humidity means comfortable evenings. Afternoon squalls are common in mid-summer. Autumn is the favorite of many familiar with Colorado plateau climate. Sun's position creates rock shadings to delight photographers. Sunsets are "picturebook." Lake cruises are delightful. Winters are relatively mild, nights are crisp and cool. Snow is rare.
