

GREAT SAND DUNES NATIONAL MONUMENT

Four Wheel Drive Tours

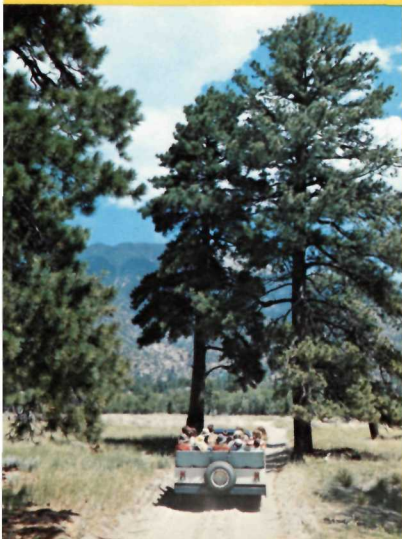

Fun for Everyone!

ALAMOSA, COLORADO

Beautiful Colorado

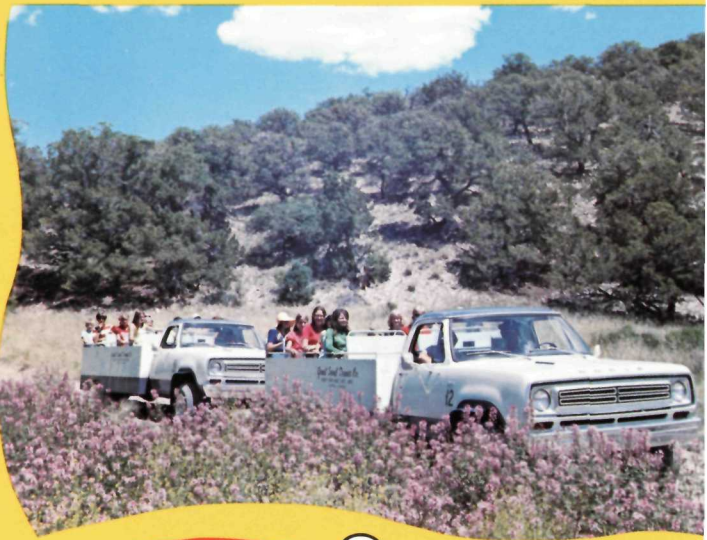

Located at the base of the majestic Sangre de Cristo Mountains in the San Luis Valley, the **Great Sand Dunes** is one of Colorado's most spectacular National Monuments. Winds, sweeping for centuries across the arid San Luis Valley, have piled sand to a height of over 700 feet against this mountain wall. Your scenic 20 mile round trip travels between these towering dunes and the snow-capped Rockies to a panoramic overlook reached only by our specially built sand vehicles.

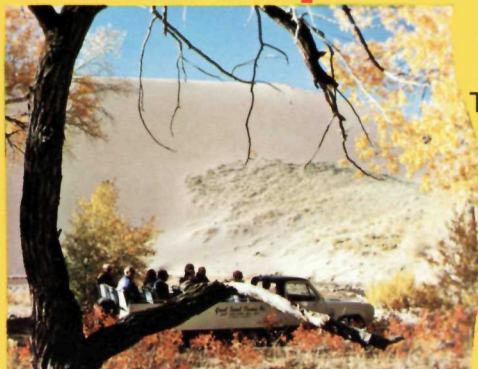

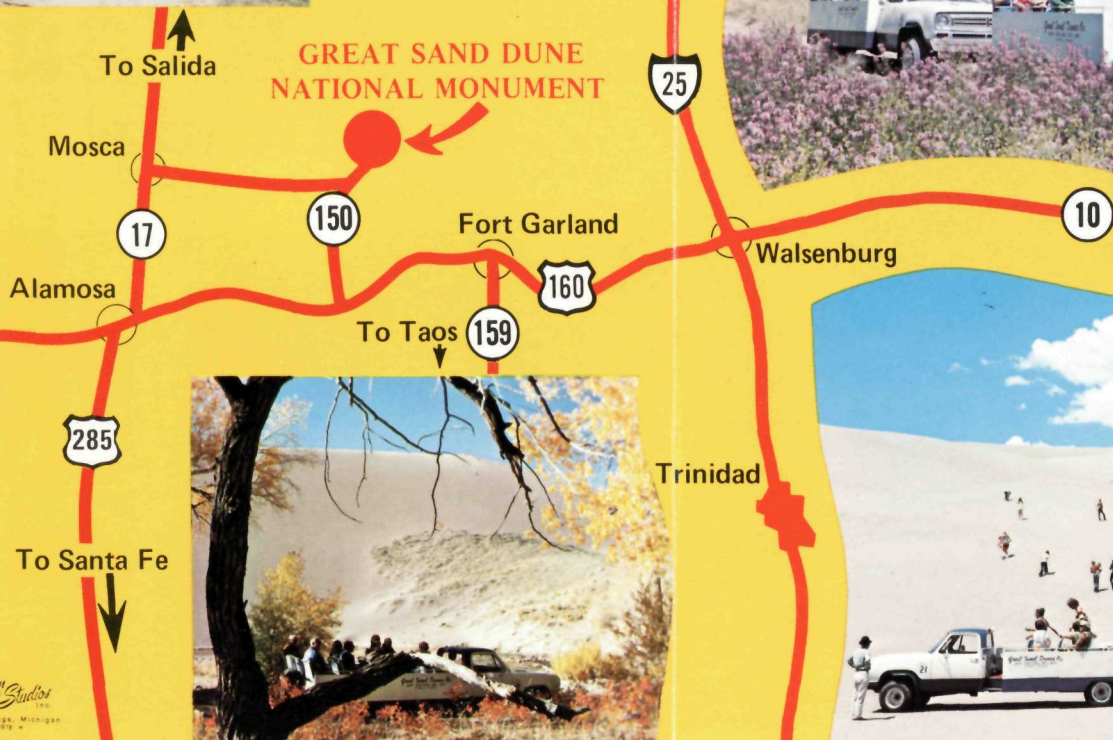

Colorado Springs

Pueblo

Bring your camera to film Ghost Forest (an exposed remnant of a stand of ancient trees that were covered by an advancing dune), mule deer, coyotes, bobcats, or with luck a mountain lion. Gorgeous flowers and other plant life offer a challenge to photographers. There are special stops at Little Medano overlook and Medano Creek where you may take a short hike in the dunes. Experienced drivers are fully familiar with the terrain and welcome questions about the area.

GREAT SAND DUNE NATIONAL MONUMENT
