WEST BEACH TRAILS

Please secure all valuables out of sight.
In case of emergency call 1-800-PARK TIP

The West Beach Trails will take you on a journey through time as well as space. Beginning on a bare sand beach and ending in an oak forest, they trace a process in nature that took thousands of years to evolve.

The National Park Service today is studying the development of natural dunes and has set aside for special observation several areas in the park's West unit. For this reason, visitors are asked to stay on the trail and to refrain from picking wildflowers or disturbing animal habitats. Have a pleasant walk.
