

## Remember, future Junior Rangers...

You are not the only visitors. The Preserve is for all of us! Take only pictures and memories, and leave only footprints.

### CONGRATULATIONS!

We are pleased to announce that

#### Preserve Your Environment

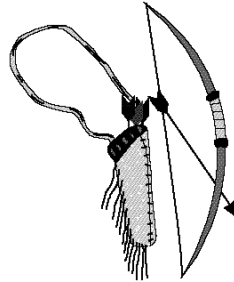

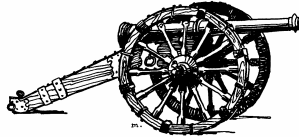

There are manatees in the St. Johns River! Look at the picture. What else do you see in the water? Will these things hurt the manatees or other creatures that live in the water?

Draw a big "X" through the things that don't belong in the water.

## Fort Caroline

Draw a line from each picture on the left to the person on the right who would use it!

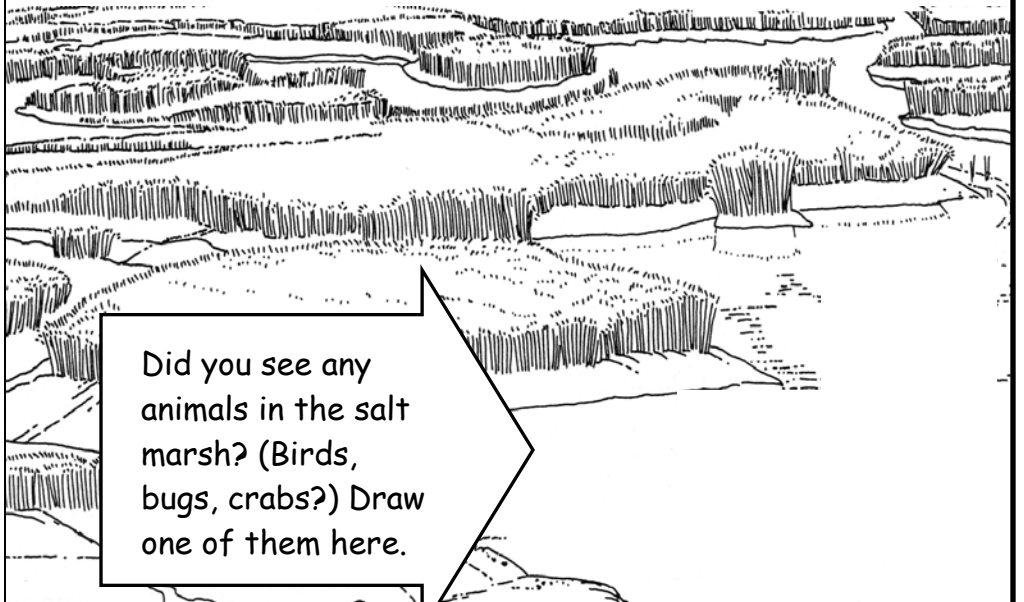

## Theodore Roosevelt Area

This is a picture of this preserve's most important ecosystem. It's called a

Circle all the things on the side of the page that you would find in a salt marsh.

Did you see any animals in the salt marsh? (Birds, bugs, crabs?) Draw one of them here.
