Narrative Description (Describe the historic and current condition of the property on one or more continuation sheets.)

The Dr. Elmer Bly House is a 23' by 37' one-and-a-half story log building on the shore adjacent to the protected waters of Hardenburg Bay in Lake Clark. The house sits on a short point of land extending into the bay. It is part of the community of Port Alsworth within the Lake and Peninsula Borough in southwestern Alaska, about 140 miles northeast of King Salmon and 150 miles southwest of Anchorage. The house faces southwest and is shaded by white spruce and white birch trees. The waters of Hardenburg Bay surround it on three sides, and its land side faces Tanalian Mountain to the east. The screened-in porch/arctic entry on the front of the house measures 10' by 13' and is within 20 feet of the high water mark of the bay. A north facing cellar entrance, about 8' by 8', is within 18 feet of the high water mark of the bay.

The Bly House is now part of a National Park Service compound that contains a floatplane base with a dock and fueling station, a small boat dock, boats, and permanent and seasonal wall tents used for housing. A small wooden framed fire cache is about 50 feet south of the Bly House. The docks, fuel tanks, housing, wall tents, and storage sheds are located immediately to the east and north of the Bly House. The closest feature is a sewage lift station pump house that is seven feet from the east wall of the Bly House. These NPS support facilities are not historic and do not contribute to the historic context of the Bly House.

About 1947 or 1948 Babe Alsworth encouraged Doc Bly to file on a small point of land east across Hardenburg Bay from the Alsworth homestead. According to a long-time resident, Alsworth wanted Bly to file on the property to prevent a potential rival air taxi operator from filing on the point. Bly moved his Dillingham dental office to Lake Clark. The Bly House was built between 1947 and 1951. Norm Stadem of Levelock stated he received dental care from Doc Bly in the house in 1947. Babe Alsworth's son John stated the Bly House took several years to complete.

8. Statement of Significance

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.) N/A

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or a grave.
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

Areas of Significance (Enter categories from instructions)

Exploration / Settlement

Period of Significance 1947-1954

Significant Dates 1947

Significant Person (Complete if Criterion B is marked above)

Cultural Affiliation Euroamerican

Verbal Boundary Description (Describe the boundaries of the property on a continuation sheet.)

The Elmer Bly House is located in the NE ¼ of the NW ¼ of the SW ¼ of Section 3, Township 1N, Range 21W, Seward Peninsula.

Boundary Justification

The boundary encompasses the house on Hardenburg Bay historically associated with Dr. Elmer Bly. Associated buildings and structures, including the outhouse, generator shed, dock, and stairs between the dock and house no longer stand.
