- Little brown bat
- Gray bat
- Keen (sharp-eared) bat
- Indiana bat
- Small-footed bat
- Silver haired bat
- Eastern pipistrel
- Big brown bat
- Red bat
- Hoary bat
- Evening bat
- Eastern big eared (rabbit-eared) bat

INSECTIVORES

- Shorttail shrew
- Least shrew
- Smokey shrew
- Eastern mole

The mammals of Mammoth Cave National Park are widely varied, from tiny shrews to whitetail deer to America's only marsupial, the opossum. If you look carefully, you may see their tracks on moist ground. But if you're looking in the daytime, tracks may be all you see – most of these creatures are far more active at night.

SQUIRRELS

- Eastern grey squirrel
- Eastern fox squirrel
- Southern flying squirrel

RODENTS

- Beaver
- Muskrat
- Woodchuck
- White-footed mouse
- Deer mouse
- Eastern harvest mouse
- Golden mouse
- Eastern woodrat
- Meadow vole
- Field vole
- Norway rat
- House mouse
- Eastern chipmunk

RABBITS

- Eastern cottontail

DEER

- Whitetail deer

CARNIVORES

- Raccoon
- Longtail weasel
- Mink
- Spotted skunk
- Striped skunk
- Red fox
- Gray fox
- Coyote
- Bobcat
