# MAMMOTH CAVE NATIONAL PARK AND HOTEL

With a tradition that dates back to 1816, the Mammoth Cave Hotel of today sits at the historic entrance to the world-famous Cave. Boasting the world's longest network of cavern corridors (more than 350 miles in length), the Cave is located beneath the rolling hills and picturesque valleys of South Central Kentucky. Tours explore amazing stalactite and stalagmite formations, immense cavern rooms, deep pits and enormous domes. Open every day of the year (except Christmas), the Park's cave tours represent the experience of a lifetime. During your visit, explore the above-ground terrain, too. With 80 square miles of densely forested hills and scenic bluffs, 31 miles of winding rivers and 70 miles of trails, the total Park experience includes walking, hiking, horse-back riding, canoeing and boating. Rates for tours, services, and hotel accommodations are reasonable.
