Morristown National
Historical Park
New Jersey

Selected Regulations

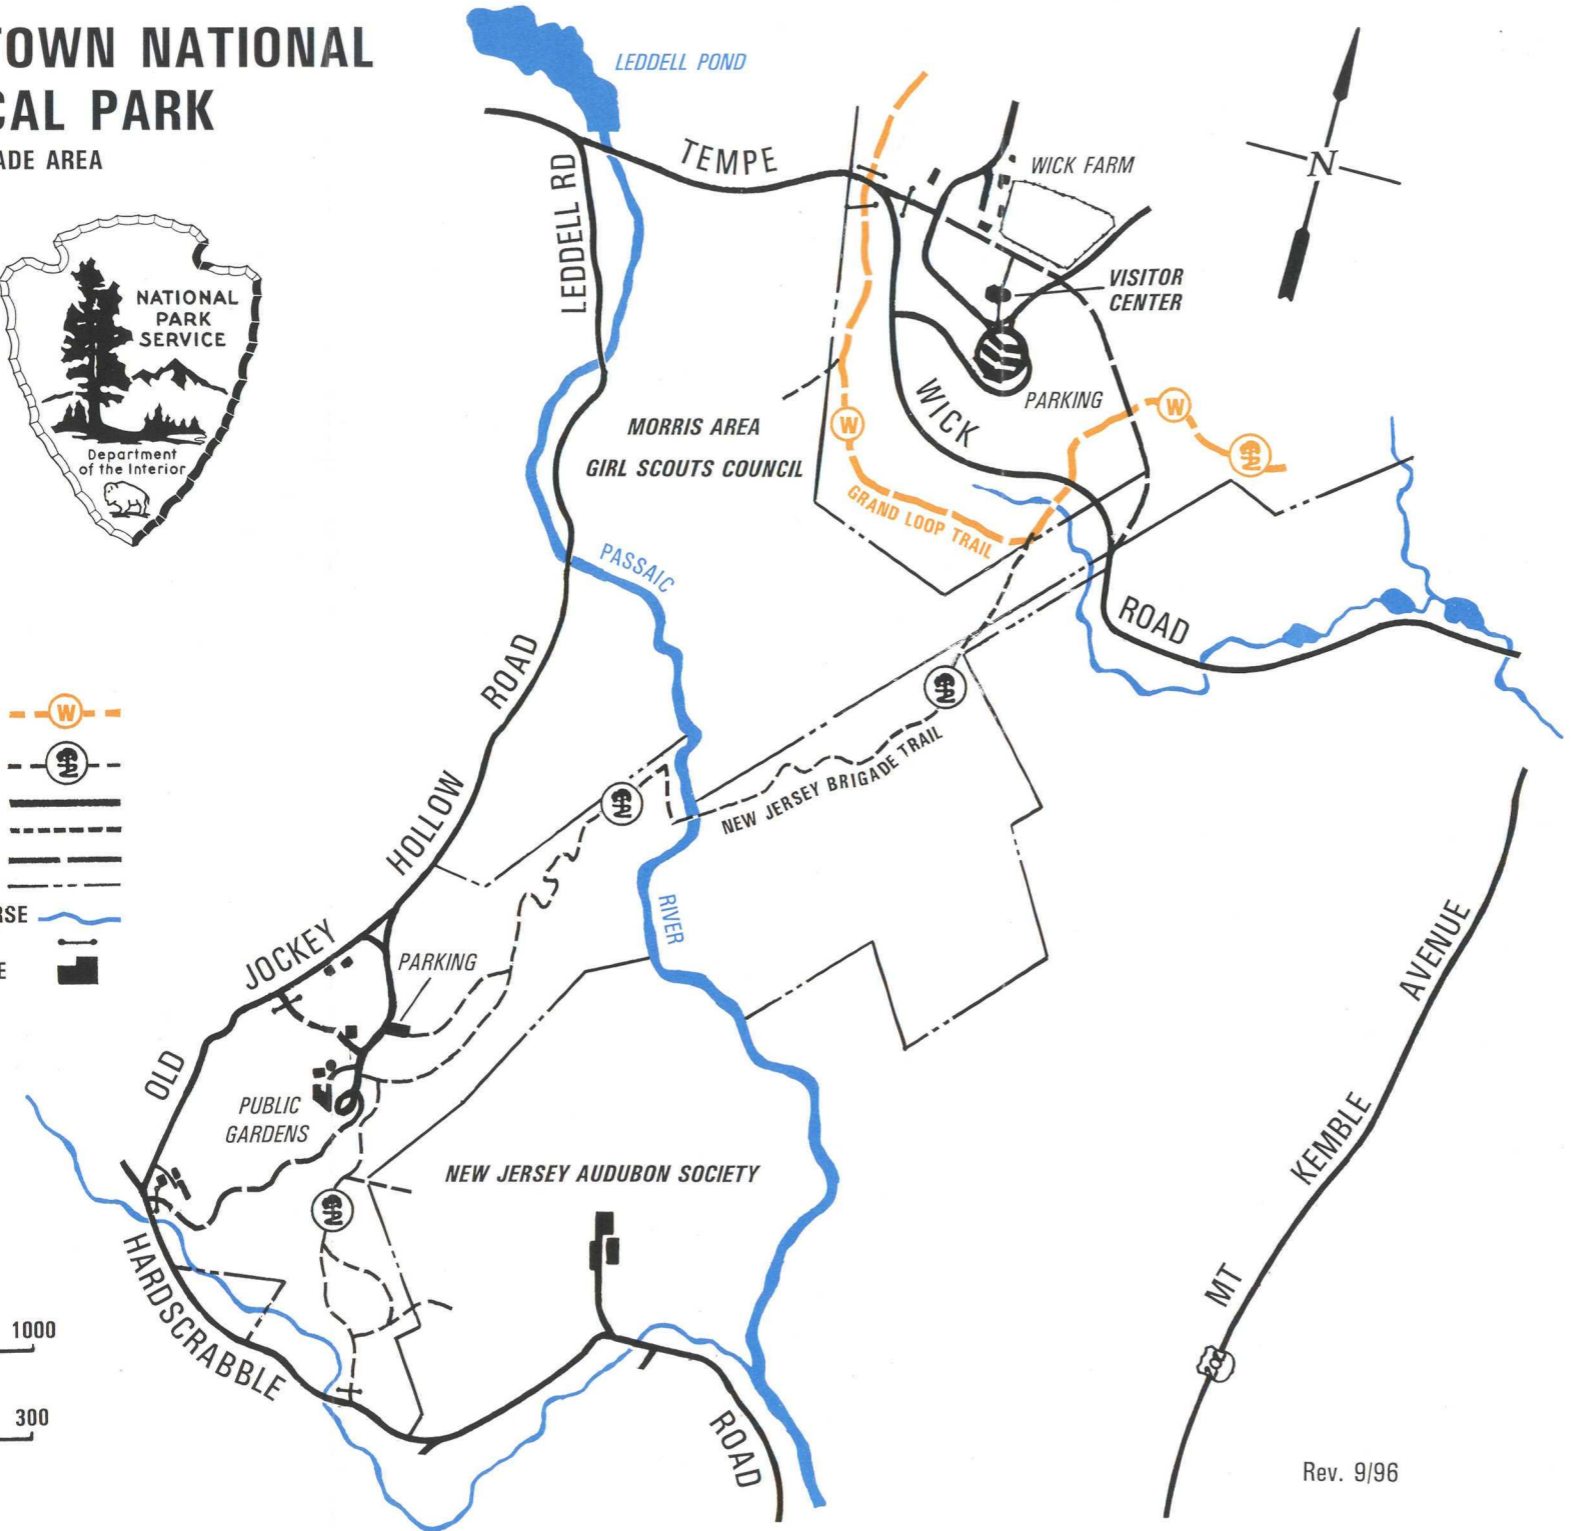

- All paleontological, natural and historical resources are protected. Special activities and groups may require permits. Contact a ranger at the Jockey Hollow Visitor Center or call 201-543-4030 or 201-539-2085 for more information.
- Bicycles and motor vehicles are NOT PERMITTED on any trails.
- Horses may ONLY use trails designated for horse use.
- Fires are NOT PERMITTED within park lands.
- Pets must be on leash no longer than 6 feet in length.
- Possession and/or use of a metal detector or similar device is prohibited, and may result in significant legal action.
- Hunting, trapping, and pursuit of wildlife is NOT PERMITTED.
- Possession of weapons and/or traps is prohibited.

Emergency Information

Emergencies: Contact Rangers at the Visitor Center or call "911" at the pay phone outside of the Jockey Hollow Visitor Center.
First Aid: For injuries, first aid is available at the Visitor Center.
Accidents: Please report all accidents to the park within 24 hours.

Printing of this trail brochure was made possible by the National Park Service Challenge Cost Share Program and proceeds from two 1996 March For Parks events sponsored by the Lennox Elementary School, Pompton Lakes, New Jersey and the Friends of Jockey Hollow.

National Park Service

Morristown National
Historical Park

New Jersey

Morristown National Historical Park contains over 27 miles of trails available for historical and natural resource education, hiking and other recreational activities.

For your safety and enjoyment, and to help the park preserve this resource, please review the safety and park regulations summarized on both sides of this brochure.

Park Hours and Parking

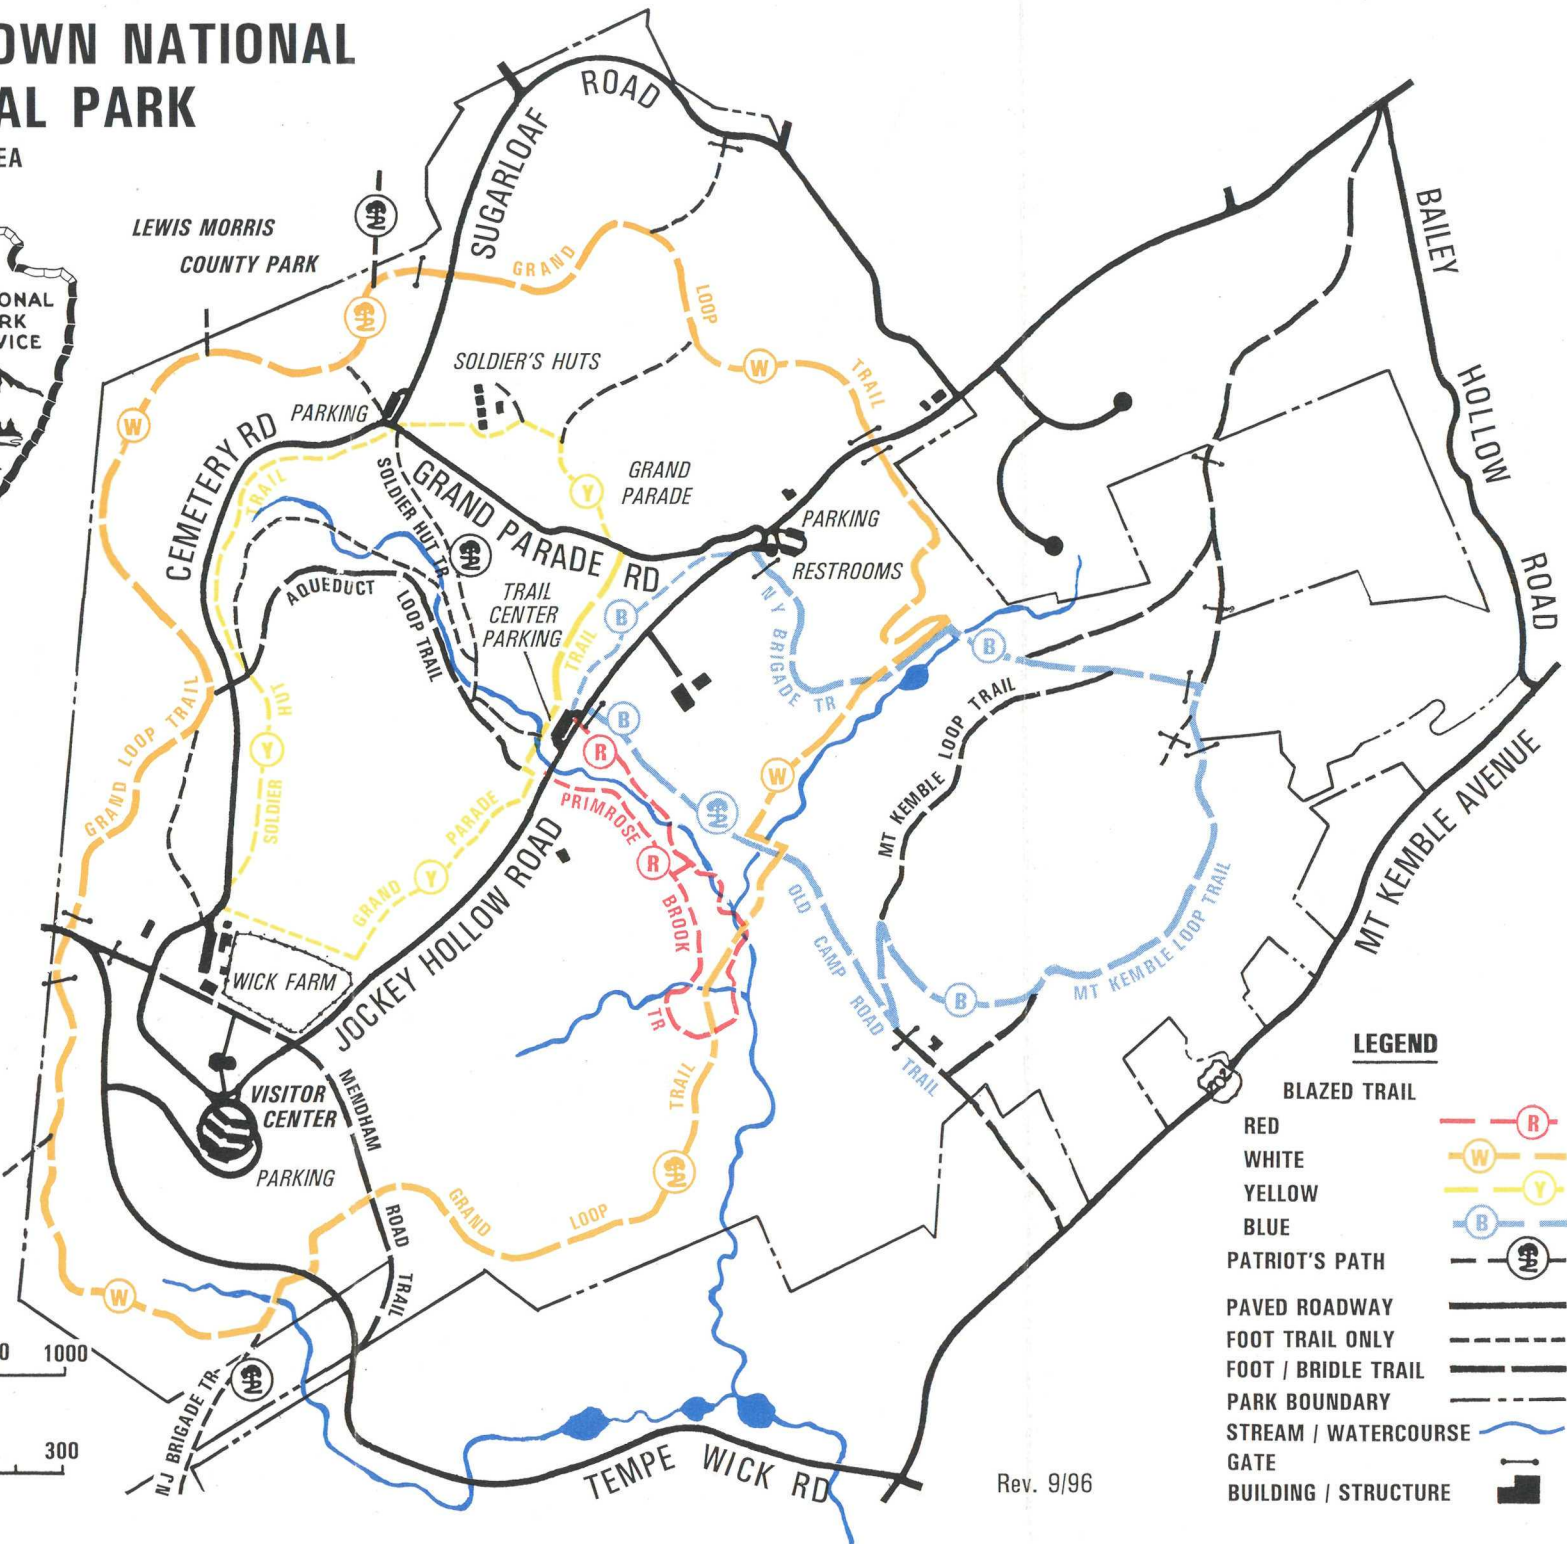

Park hours are posted at road entrances, on bulletin boards, and at the Visitor Center. Vehicles may only park at designated parking spaces.

For more information, call 201-543-4030 or 201-539-2085.

Safety Information

- * **Tick Advisory** - This area is inhabited by northern deer ticks which can transmit Lyme disease to humans. A few simple precautions will minimize your chances of being bitten by a tick:
 - Stay on the trails. Ticks are much more likely to be found in leaf litter than on the clear ground of the trails.
 - Tuck your pant legs into your socks, and your shirt into your pants. Keep ticks on the outside.
 - Wear light colored clothing. Inspect your clothes for ticks often.
 - Wear repellents, applied according to labels.
 - Check your head and body thoroughly when you return home.

Poison Ivy - "Leaves of three, let them be." Common throughout the park, this plant grows either as a ground cover and/or as a vine supported by trees.
