

National Park Service

UNIFORM CATALOG

To My Fellow Uniformed Employees:

Our uniform is important. To our visitors, it is an identity. To co-workers, it is our shared identity.

I've had the honor and privilege of wearing the uniform from my first days as a seasonal ranger at Grand Teton. I was and remain proud of the traditions the uniform represents and proud of the uniform itself.

Our uniform is a legacy even older than

the National Park Service. The first authorized "park ranger" uniform was delivered to a national park in 1911, half a decade before the Service itself was created.

Over time, the NPS uniform has become one of the most recognized and respected images in America. It has come to represent reverence for the resources and regard for the visitors who have been entrusted to our care.

This new catalog underscores the continuing effort to assure that the uniform will sustain that legacy of professionalism. It also reflects the changing workplace concerns of those who will carry that tradition far into the new millennium.

Let us go forward together, proudly, in the uniform of this great agency.

The National Park Service recognizes the importance of the uniform to the Service's public image and employee pride. We continually strive to ensure the highest degree of consistency in uniform appearance commensurate with the diversity of tasks and climates in which Service employees perform their assigned duties.

This uniform catalog and ordering guide have been produced in conjunction with Horace Small Apparel Company and R&R Uniforms, Inc. to assist you in ordering your designated apparel.

Below is a brief overview of the system structure and each uniform category. For more information, please check with your uniform coordinator, or refer to NPS-43, the National Park Service Uniform Guideline.

ORDERING INFORMATION

PLEASE READ THIS BEFORE YOU ORDER

1. For guidance on uniform policy standards and procedures, refer to NPS-43, the National Park Service Uniform Guide-line.
2. Be sure to use the new Ordering Guide. Confirm that the guide is current, and fill in all information on your blank order form.
3. Personnel are authorized to order only those items which correspond to their uniform class.
4. Returns and exchanges must be received within 30 days of receipt of order. See below for more information.
5. Ordering uniform items for another person is prohibited.
6. Maternity and lifeguard order forms are available from Horace Small Apparel/R&R Uniforms Customer Service Department.
7. Please furnish all information requested on the order form.
8. For proper fit, order items according to your measurements. Take measurements following the guide on page 4 of your new Ordering Guide. Review size charts for each item. Select size according to the larger measurement (i.e., waist, hip, etc.). If between sizes, always choose larger size. Size charts are different for different garments. Please read each size chart carefully.
9. To insure correct trouser length, carefully follow instructions for inseam measurement found in your Ordering Guide.
10. Skirts are shipped unhemmed to accommodate individual needs.
11. Extra long tailed shirts can be ordered. However, deliveries may take from 90 to 120 days.

HOW TO ORDER

Please read carefully to insure you receive the correct items with a proper fit. Orders are shipped only to official duty station locations.

RECEIPT & ACKNOWLEDGMENT

- When you receive your order, you must check and verify items received against the packing list. You must sign and date the list, then forward the endorsed packing receipt to your supervisor.
- This documentation is essential for NPS audit and accounting purposes.
- Please try on apparel and verify fit. Do not wash items until you are sure of fit and that you are not going to return an item.

SPECIAL ORDERS

- Special orders are available for sizes that are outside the size range listed in the catalog. Contact Horace Small Apparel/R&R Uniforms Customer Service Special Order Expeditor for assistance at 1-800-448-7968 between 7:00 a.m. and 6:00 p.m. Central Time, Monday through Friday. Deliveries for made-to-measure items require a minimum of 90 - 120 days.

TAPERING

- Shirt tapering is available at \$6.00 per shirt. Please indicate in Special Instructions section of the order form. Chest and waist size information must be provided.
- Be careful when providing measurements, as tapered shirts and special orders cannot be returned for exchange.
- Shirt tapering is an alteration which must be paid for with personal funds. Please include check or list credit card number for payment on order form.

MAKING EXCHANGES AND RETURNS

NOTE: Exchanges and returns must be received within 30 days of receipt of order.

- Print name, duty station, and account number. Be very careful to use correct account number which is your social security number.
- Use the exchange form on the back of your packing slip for all exchanges and returns.
- Indicate size and quantity received as well as size wanted. Print any additional instructions on exchange form itself.
- Prepare return shipping box as securely as possible to prevent merchandise from being damaged during shipment.
- All hats must be double-boxed to prevent damage during shipment. Horace Small Apparel/R&R Uniforms will not accept responsibility for returned hats which are damaged due to improper packaging.
- We cannot exchange any garment that has been worn, washed or altered unless garment is defective.
- Any garment found to be defective (other than due to normal wear and tear) can be returned for exchange or credit at any time. Refer to Horace Small Apparel/R&R Uniforms's warranty statement.

PRODUCT WARRANTY

All garments and accessory items are warranted by Horace Small Apparel/R&R Uniforms, Inc. for their lifetime against defects in materials and workmanship. If a garment or item fails due to manufacturing or fabric defect, we will repair or replace the item without charge. Repairs due to accident, improper care or negligence, where Horace Small Apparel/R&R Uniforms, Inc. is not at fault, will be performed at a reasonable charge. Tennessee law requires that all garments returned for repairs be clean.

GARMENT CARE

FROM: "A Guide to Keep Your Uniform Looking Better Longer"
©Raeford Uniform Fabrics Company

55% POLYESTER / 45% WOOL GARMENTS

- Brush your uniform regularly to remove surface dirt.
- When wet, don't dry uniform in direct sun or near extreme heat.
- When not in use, hang uniform coat and trouser on wooden hangers. Trousers should be hung full length by cuffs.
- Avoid carrying pointed, sharp or heavy objects in pockets.
- Your uniform is a valuable asset. Entrust it only to a quality establishment for cleaning and pressing.
- Have more than one uniform and alternate wearings. This will substantially extend the life of your uniform.

POLYESTER/COTTON GARMENTS

- Machine wash garments in warm water. Do not bleach.
- Tumble dry on permanent press setting, removing promptly. Hang up so wrinkles will fall out. Touch up with warm iron.
- For stains, spray a pre-wash on soiled area and then wash as instructed above.
- Dry clean periodically to sharpen creases.

WINDBREAKER

- Machine wash in cold water on gentle cycle.
- Use mild soap.
- Rinse thoroughly.
- Tumble dry on low heat.
- Do not dry clean.
- Do not bleach.
- Do not iron.

THE PROBLEM OF PERSPIRATION

Perspiration can have a number of harmful effects on fabrics, such as loss of fabric strength. To prevent such problems, the following precautions should be taken:

- Dry cleaning solvents do not remove perspiration from a fabric. Affected areas should be called to the attention of your dry cleaner.
- Although worsted and worsted-blend fabrics may not be washable, a perspiration affected area may be placed over a towel and blotted with a damp sponge. The area should then be blotted vigorously between two dry towels and hung to air dry.
- For extreme cases, dress shields and the substitution of T-shirts for sleeveless undershirts are recommended.

GORE-TEX®

- Machine wash in warm water using a mild soap.
- Use no additives (bleach, brighteners, fabric softeners, etc.)
- Drip dry or tumble dry without heat.
- For soiled spots, use K2R or a similar product.

WHAT TO DO ABOUT SPOTS AND STAINS

The following are simple procedures for removing or reducing stains from uniform fabrics using common household items.

CHEMICALS AND MATERIALS NEEDED

Rubbing alcohol, Naphtha (paint remover), Vinegar (white grade), Glycerine (glycerol), Starch (laundry grade), Soft toothbrush, Sponge, Blotter Paper, White Petroleum Jelly, Ammonia, Detergent

Butter, Cooking Oil: Sponge and flush with naphtha, feather out and dry.

Blood: Sponge with water. Dry. Sponge and flush with naphtha. Feather out and dry.

Coffee, Tea, Catsup: Sponge with water and soak stain in glycerine. Flush well with water. Feather out and dry.

Chewing Gum: Sponge in naphtha and scrape off gum. Feather out and dry.

Chocolate: Dry and brush off excess. Sponge with naphtha and dry. Sponge with water. Loosen stain with brush. Feather out and dry.

Glue: Sponge with water. Loosen with brush. Flush with water. Feather out and dry.

Iodine: Sponge with rubbing alcohol against blotter paper. Feather out and dry.

Mayonnaise: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Motor Oil/Tar: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Mustard: Apply dry starch. Brush to remove excess. Apply glycerine for 30 minutes. Flush well with water. Feather out and dry.

Mud/Rust: Dry and brush off excess. Sponge with water. Loosen with brush. Flush with water. Feather out and dry. Repeat with vinegar if necessary.

Ink/Ball point: Rub white petroleum jelly into stain. Soak in detergent solution and launder.

Tree Sap: Mix a small amount of ammonia with water and gently rub into spot. After spot has dried, have garment cleaned.

Grass Stains: Rub detergent or a pre-wash directly into stain. Clean promptly.

PLEASE NOTE:

- Most chemicals listed above for spot removal are flammable and should be used in a well-ventilated area free of any open flame. After treatment, air dry. Do not dry in a tumble dryer after treatment.
- All work should be done with a clean blotter underneath the stain area.
- Feathering out prevents ringing and is done by starting outside the stain and lightly brushing towards the center.
- These care procedures are provided only as a service and should not be interpreted as a warranty, implied or otherwise.

About the catalog location

Great Smoky Mountains National Park - The Smoky Mountains, some of America's oldest mountains, are part of the Appalachian Mountain range. The mountains get their name 'Smoky' from the smoke-like haze which envelops it. The Great Smoky Mountains were established as a National Park in 1934 and are one of the largest protected land areas east of the Rocky Mountains. With more than 500,000 acres of forest (800 square miles), divided between Tennessee and North Carolina, the Smokies contain an enormous variety of plants and animals.

Each year the Park receives more than nine million visitors, which is the highest of any of the national parks. The Park is a delightful mix of forest wildlands and restored log cabins and barns, reminding us of the pioneers who carved a living from this wilderness. The Smokies appeal to anyone who enjoys hiking, walking, biking, horseback riding, camping, fishing, birdwatching, nature photography or just enjoying the beautiful fall colors which are at their finest in late October.

Our thanks

The staff of Horace Small Apparel Company / R&R Uniforms, Inc. would like to take this opportunity to thank Superintendent Karen P. Wade and Chief Ranger Jason Houck.

About the catalog and models

The front cover photograph (The By-Pass, Scenic view) and the interior shots were taken in the Great Smoky Mountains National Park.
