June 8, 1965

Pres. Lyndon Johnson  
Washington, D.C.

We read about "more parks for a growing America" in our Weekly Readers. We think it is a good idea.

We are a fifth grade class of Live Oak, California. We have an area for a park. It is the Sutter Buttes. They are the smallest range of mountains in the world. It is a beautiful place too.

We would like to have this mountain range made into a park because they are defacing them with gravel pits. We like to study about the rocks in the Buttes and the volcanic formation.

Very truly yours,  
Kurt Johnson

Master Kurt Johnson  
Hopkins Avenue  
Gridley, California

Dear Kurt:

Your letter of June 8 to the President has been referred to this office concerning your interest in the preservation of Sutter Buttes, California.

Our Western Regional Office in San Francisco is directly responsible for evaluating the park potential of areas along the West Coast. To provide you with their more intimate knowledge of the particular area you have mentioned, we are forwarding your letter to them for reply.

Sincerely yours,  
(SGD) JACKSON E. PRICE

Acting Director
