Dear Mrs. Bayes:

Your letter of January 8 to the National Park Association concerning the use of certain lands in Santa Ana Canyon, California, for park purposes has been referred to us for reply.

We appreciate your interest in utilizing this land for park purposes. The National Park Service does not have any plans for the area but there may be other agencies interested in the property. To determine this interest you may wish to contact local recreation and park agencies and the State of California, Division of Beaches and Parks, Room 1416, Resources Building, 9th and O Streets, Sacramento, California.

Sincerely yours,
