1100 OHIO DRIVE SW.  
WASHINGTON, D.C. 20242

IN REPLY REFER TO:

## Memorandum

To: Director, National Capital Parks  
From: Acting Chief, United States Park Police  
Subject: Annual Report 1972

The success of the United States Park Police is measured by the degree with which we achieve our objectives, by our contributions to the mission of the National Park Service, and through the reaction of the local and visitor communities we serve. The following report summarizes the major activities of the Force that have been accomplished to fulfill these ends.

The United States Park Police completed the year with a complement of 526 employees. In addition to 457 police officers, the Force had the support of 39 uniformed guards and 30 civilian employees. The United States Civil Service Commission administered examinations to 476 applicants, of which 288 were certified as eligibles. From these eligibles, 55 candidates received appointments to the Force in 1972.

A perennial correlation between the increased park visitation and the responsibilities of the Force was again evident during the reporting year. The most significant factors concerning the increased workload of the Force were attributed to the requirements necessary to facilitate the control of traffic, special events, public gatherings and police service incidents. Specifically, traffic charges increased by nearly twenty thousand over the previous year, special events and public gatherings numbered 5,663 representing a 38% increase, and the Force registered a total of 34,488 public service incidents, a 20% rise.

The energies needed to combat the law enforcement problems and to furnish quality visitor services in the National Capital Parks are many. Planning, manpower deployment and the dedication and support of members of the NCP staff have had a positive impact on some of our major problems. For example, serious crime (Part I Offenses) totaled 915 offenses, a reduction of 102 crimes from the previous year. Motor vehicle accidents have increased an average of 128 accidents per year during the past 5 years. The 1972 accident

total was 3,969; however, the Force investigated only 19 motor vehicle fatalities, a total considerably less than any of the 5 previous years.

Although Part II Offenses reached a total of 6,685 incidents, (an increase of 940 incidents), there are some promising positive aspects to be identified. As an example, arrests for Driving While Intoxicated showed a gain of 282 arrests, more than double the arrests for 1971. Hopefully, we can attribute the removal of these people and vehicles from the park roadways to manpower flexibility and selective patrol programs.

The statistics give us some assurance that the Force is moving in the right direction. We realize that a combination of efforts must be synchronized to maintain this direction. Two of the more important efforts are an appropriate training program and a successful community, human and public relations program.

The benefits experienced from education led us to pursue an extensive training program during 1972. A perpetual "In-Service" program was designed to serve as a refresher course emphasizing new methods, techniques and explain the impact of new legislation and recent court decisions. Specialized training covered a series of subjects ranging from advanced indoctrination training to the executive managerial phase. Over 50% of the Force is currently enrolled in formal studies with local universities and colleges.

Decentralization to a substation operation has enhanced relationships with many segments of the community. We have instituted a Force policy of "getting involved" to help create the true spirit of public service in mutual programs and problems. The exhibitions performed by the Horse Mounted Patrol and Dog Service Units remain a major public attraction and an important avenue for solidifying relationships with the local community. Profits have been reciprocal. The Force and the community have gained a broad understanding of each other.

As previously mentioned, the Force is moving in the right direction. However, we shall constantly seek improvement to execute the assignments and responsibilities of the Force. With your continued support, we dedicate ourselves to the goals of the Service.

The Anacostia Substation is located in Anacostia Park and has been operational since January of 1970.

Decentralization to a substation operation has made it possible to better serve the community and create a new awareness of need regarding public service and law enforcement problems.

Some of the major areas of patrol responsibility includes:

- Suitland Parkway
- Anacostia Park
- Fort Dupont
- Fort Washington Park
- Kenilworth Aquatic Gardens
- Children's Farm

Lieutenant Earl H. Lee  
Commander, Anacostia Substation

Anacostia Substation

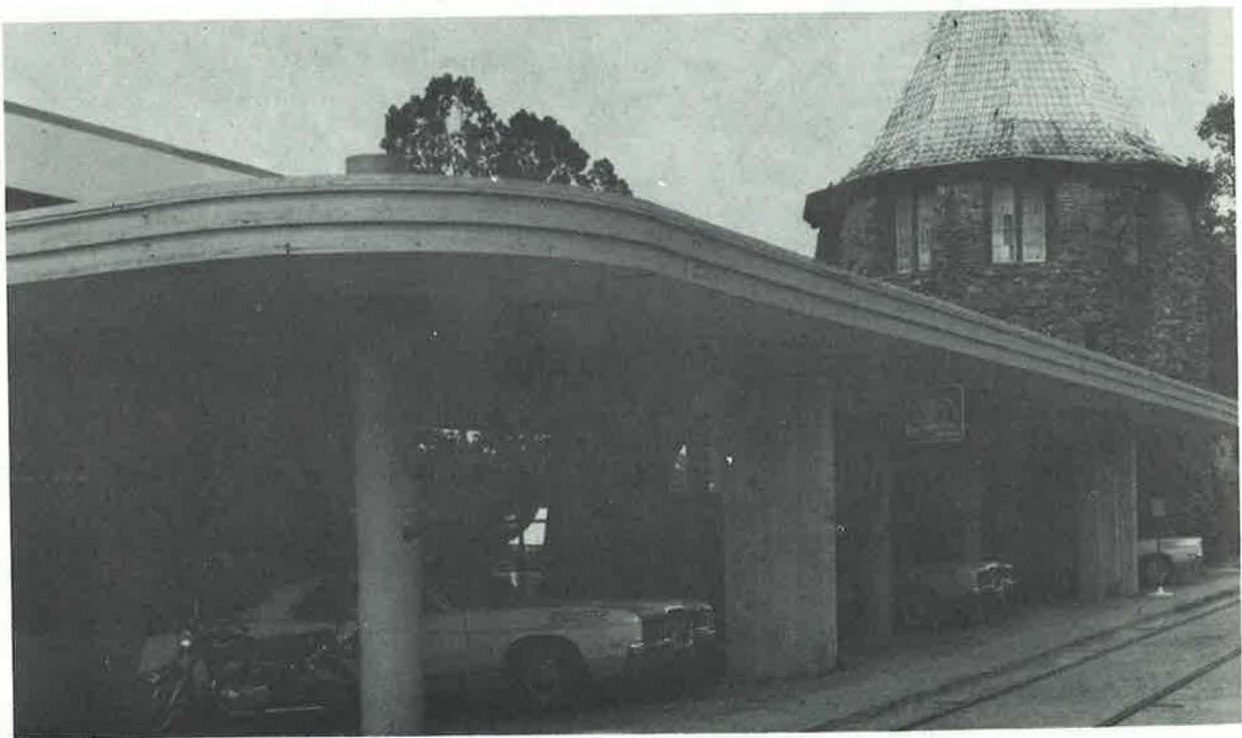

Lieutenant William R. Kinsey  
Commander, G.W.M.P. Substation

George Washington Memorial Parkway Substation personnel are mainly responsible for the protection and security of visitors and resources located in sections of Maryland and Virginia. In addition to the heavy vehicular use of the George Washington Memorial Parkway (Maryland and Virginia), the Chesapeake and Ohio Canal is the scene of many year-round outdoor activities. Visitation statistics for the Canal in 1972 reached over 2 $\frac{1}{4}$  million.

Other park areas receiving increased visitation and demanding additional security were Fort Hunt Park and the new and popular Wolf Trap Farm.

George Washington Memorial Parkway Substation

Greenbelt operations are primarily geared to the direction and control of traffic on the federal portion of the Baltimore and Washington Parkway.

Our purpose is to insure safe travel as much as we possibly can on one of the major routes linking two large metropolitan areas. The parkway also carries a considerable amount of Washington's commuter traffic.

Other properties included in the patrol function of the substation are Greenbelt Park and Campgrounds and property administered by the U.S. Department of Agriculture.

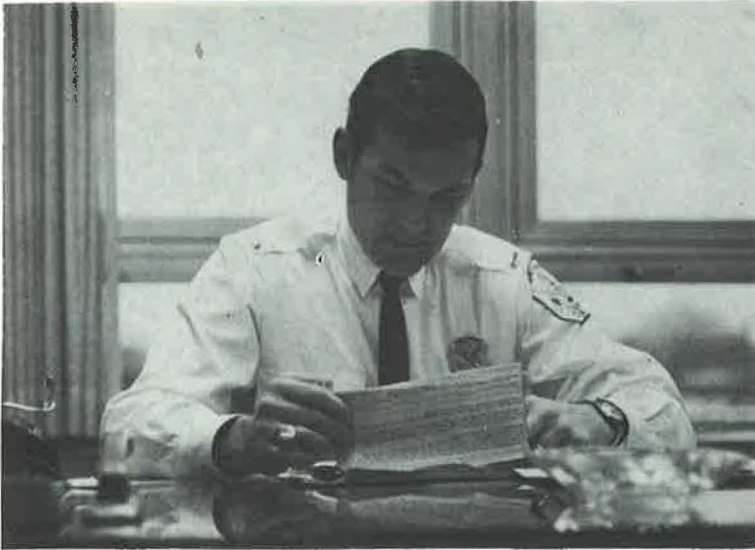

Lieutenant Richard A. Valentine  
Commander, Greenbelt Substation

Greenbelt Substation

Lieutenant William W. McQueeney  
Commander, Potomac Park Substation

Potomac Park Substation is the largest single manpower resource of the Force. Officers, supervisors and guards assigned to this area are committed to providing public and protective services for the greatest number of visitors to the National Capital Parks. This area of responsibility includes many of the historic treasures of our Nation, including centers of attraction such as, the Washington Monument, Lincoln and Jefferson Memorials, John F. Kennedy Center for the Performing Arts and park areas surrounding the Presidential Mansion.

Locations within the boundaries of Potomac Park responsibilities host many spectacular events each year. Among these are the annual Cherry Blossom Festival, Independence Day Celebrations and many public gatherings which have drawn National attention.

United States Park Police Headquarters  
Temporary location of the Potomac Park Substation

The Rock Creek Park Substation centrally located in the largest park in Washington, D.C. Within its 1,754 acres, the city has an outstanding recreational area "in its back yard." The park has a Nature Center, an amphitheatre, a golf course, 14 miles of bridle trail and 70 picnic groves.

This substation also covers the C & O Canal to the District boundary, the Rock Creek and Potomac Parkway and a great number of smaller parks scattered throughout the north-east and northwest sections of the city.

Lieutenant Bobbie W. Huffman  
Commander, Rock Creek Substation

Rock Creek Substation

## OPERATIONS STAFF

Captain Hugh A. Groves, Special Operations Force  
Captain Paul F. Burgus, Criminal Investigations Branch  
Inspector Jerry L. Wells, Commander, Operations Division  
Captain Parker T. Hill, Patrol Branch

Captain Hugh A. Groves  
Commander, S.O.F.

The Force developed a Special Operations Unit during the first months of 1972. The purpose of the Special Operations Force is to provide a flexible police unit with the capabilities of furnishing police services for special events, public gatherings, selective enforcement programs and to supply the necessary manpower for National Park Service field assignments. Normally, events of this nature would interrupt the daily functions of the Force because special problems required reassignment of personnel. With the inception of Special Operations, interruptions have been held to a minimum.

During periods other than special events and demonstrations, S.O.F. has enabled the Force to provide selective enforcement in areas demanding special attention because of new or increased law enforcement problems.

Force Members on Field Assignments During  
Calendar Year 1972

The following list comprises the assignments, dates, number of days and number of men who were deployed to various federally owned parks, memorials and regions throughout the Park Service for the purpose of assisting Park Rangers in the maintenance of law and order.

ASSIGNMENT LOCATION	DATES	# DAYS	# MEN
Statue of Liberty, N.Y.	01/01/72 - 01/06/72	5	5

## MOTOR VEHICLE ACCIDENT SUMMARY

The need for traffic direction and control and the safe movement of vehicles on park roadways is a principal concern of the Force. Among the most significant areas patrolled by the park police are the Baltimore and Washington Parkway, Suitland Parkway, George Washington Memorial Parkway and the Potomac and Rock Creek Parkway.

The next few pages of this report offer some interesting statistics and illustrate the information available to traffic managers for use in identifying special problem areas and selective enforcement programs.

## SPECIAL EVENTS AND PUBLIC GATHERINGS

Several years ago law enforcement could effectively plan their programs to meet public needs with little difficulty. Administrators relied on recorded trends and statistics to direct manpower energies to combat traffic problems, criminal possibilities and to provide service for scheduled public events. With the advent and popularity of public expression through demonstration, advanced police planning has become complicated. Sophisticated news and communications networks immediately inform the public of controversial matters which many times have created a spontaneous response of public demonstration. Demonstrations of this nature make planning almost impossible. Law enforcement can only strive for a high degree of readiness to cope with such situations.

The past year, the United States Park Police serviced special events and demonstrations ranging from anti-war demonstrations to a variety of liberation movements. The following illustrates the demand for law enforcement: (1) in 1972, the Force provided public assistance and protective services for 5,663 special events and demonstrations, (2) this commitment required 84,827 man-hours, an increase of approximately 40% in demonstrations and an additional 27,000 man-hours over the previous year.

March on the Pentagon

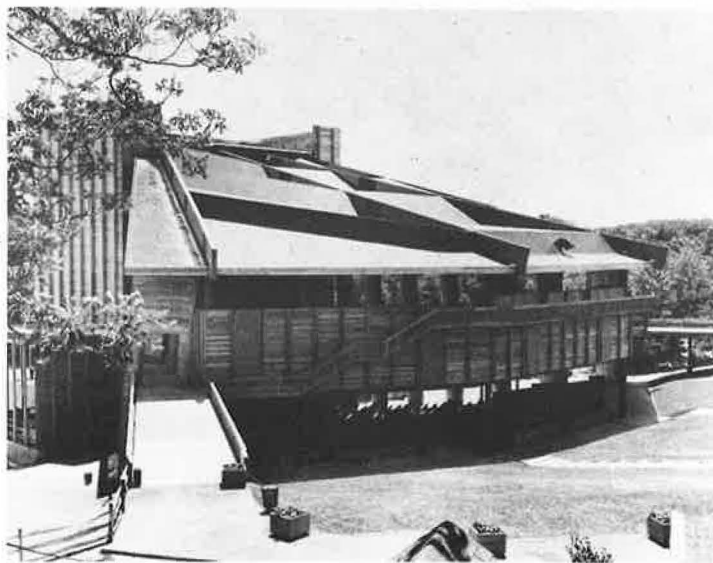

Cuban Demonstration

Demonstrations accounted for a large portion of our commitment, while the remainder was utilized in conjunction with major annual events and seasonal attractions. The National Cherry Blossom Festival, Presidents Cup Regatta, Pageant of Peace and the John F. Kennedy for the Performing Arts continue to draw national attention and growing crowds. Seasonal programs at Wolf Trap Farm, Carter Barron Amphitheatre, Watergate and the Summer In The Parks calendar have enjoyed tremendous appeal and attendance. A decline in demonstrations is not evident in the near future. Likewise, special events and entertainment programs promise future expansion. Demonstrations, miscellaneous public gatherings and special events have now reached a level of top priority under the primary responsibilities of law enforcement agencies.

National Cherry Blossom Festival

Filene Center for the Performing Arts, Wolf Trap Farm

Officer Gordon B. Hackett and his service dog "Falcon" receive a congratulatory message from Director Dickenson. Falcon placed 2nd among 155 canine units in the 1972 U.S. Canine Association National Dog Trials, Richmond, Va.

SERVICES DIVISION, ADMINISTRATIVE BRANCH, TRAINING SECTION

During 1972, 318 Force members attended "In-Service Training" designed as refresher courses, emphasizing the impact of recent court decisions, first aid training, defensive driving, use of defensive equipment and other law enforcement oriented subjects.

Approximately 92 sessions in Specialized Training were attended by Force members. These courses increase special skills and add significantly to an officer's technique and procedural abilities.

Aside from Force sponsored training, approximately 240 members are currently enrolled in advance studies at local colleges and universities.

Basic Law Enforcement School - C.F.L.E.T.C. Academy  
Graduating Class of November 1972

In December, the Force launched a program that will enable us to broaden a valuable service to the public. Three members of the Force attended the "Helicopter Pilot Training School," conducted by A. G. Rotors, Inc., at Gettysburg, Pennsylvania. Helicopter patrols will benefit traffic management, search and rescue missions, emergency services and assist the Force in the deterrent and prevention of crime.

Lt. R.T. Chittick (Left) Training Session,  
Gettysburg, Pa.

The Defensive Driving Course is located at Beltsville, Maryland and serves as a valuable asset by providing professional training in vehicle operations. This course is part of the mandatory curriculum each officer must satisfactorily complete before being assigned to operate any Force vehicle. A total of 1,763 students received this training during 1972. Of these, 720 were representatives of Federal, State and Local law enforcement agencies, 298 were employees of the National Park Service (Rangers), and 745 park policemen received either initial or refresher courses.

Mid-Level Management School

Criminal Investigations School

A new Horse Mounted Training Center was established in October. The new center is located in Rock Creek Park and is presently being used to train new members and mounts, as well as, N.P.S. Rangers and officers from other law enforcement agencies. Training includes horsemanship, first aid, stable management and crowd control techniques. The new center will also serve to periodically retrain officers and to "school" newly acquired mounts.

U.S. Park Police Horse Mounted Training Center

SERVICES DIVISION SUPPORT PERSONNEL

One of the most important components of the law enforcement agency is the contribution made by its support personnel. Processing reports, handling transportation, personnel and communications problems and conducting liaison efforts identify but a few of the tasks involved in the total support function.

## COMMUNITY AND PUBLIC RELATIONS

One of our most successful endeavors in this field have been the performances presented by the Horse Mounted Patrol and the Dog Service Unit before thousands of people. Enthusiastic support has been received from a great number of school groups, church and civic organizations and the Summer In The Parks programs. Informational meetings and presentations before community groups assist us in developing effective communications concerning mutual problems and future plans. All programs are geared to create an atmosphere of understanding with the local and visitor communities we serve.

## MAJOR GOALS AND OBJECTIVES 1973

1. As soon as the freeze on hiring is lifted, proceed with filling all existing vacancies.
2. Up-grade the Force Radio network to develop a more effective communications system.
3. Up-date our vehicle preventive maintenance program to include motorcycles and motor scooters.
4. Develop applicant entrance test to measure agility, endurance, stamina, dexterity and strength. We will work with the Civil Service Commission on this.
5. Establish required program to test, evaluate, and report on new safety equipment on 48 new police vehicles assigned to us by the Department of Transportation.
6. Improve financial management reporting to the entire Force staff in an attempt to create a cost awareness, and effect cost reduction where possible.
7. Rotate some of our key Section Supervisors in an attempt to broaden their capabilities and improve our effectiveness in the area of administrative management.
8. We plan on concentrating a greater effort in our role of inspections.
9. Accelerate our safety program to prevent Force injuries and accidents.
10. Reduce crime in National Capital Parks by increasing police patrols.
11. Up-grade the caliber of professionalism in police and public services rendered to the visitors of National Capital Parks.
12. Improve vehicular traffic flow and provide greater traffic safety to the visitors of National Capital Parks.

13. Increase training for civilian employees.
14. Increased involvement with the communities surrounding park areas and greater dissemination of information to news media of work and mission of the United States Park Police.
15. Implementation of United States Park Police helicopter program.
