

National Park Service Rivers, Trails and Conservation Assistance Program

Produced by Russell Clark

About the Author

This Trail Planning Toolkit was developed by Russell Clark, a project manager for the National Park Service – *Rivers, Trails and Conservation Assistance* program. The idea for the toolkit developed when Russell Clark, coordinating three multi-county trail planning projects and 10 workshops in fewer than three months, needed a consistent process for collaborating with multiple partners and gathering large amounts of information from community members and trail user groups.

It's within this context that Russell Clark designed this step-by-step guide for communities, partners and local jurisdictions to use in developing and implementing a trail planning workshop. Included are tools to help workshop participants identify community assets, establish trail priorities and brainstorm ideas for future linkages.

"If the toolkit helps get someone through the process easier, I've done my job. Ultimately, it's intended to get someone through the process of planning consistently and efficiently." – Russell Clark

About the NPS - Rivers, Trails and Conservation Assistance program

The *Rivers, Trails and Conservation Assistance program* is driven by the mission of the National Park Service to conserve natural and cultural resources and promote outdoor recreation in collaboration and partnership with communities.

National Park Service Mission

The National Park Service preserves unimpaired the natural and cultural resources and values of the national park system for the enjoyment, education, and inspiration of this and future generations. The park service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

Implementing the NPS Mission

The *Rivers, Trails and Conservation Assistance* program helps carry out the National Park Service's mission by supporting community-led outdoor recreation and conservation projects for the benefit of all Americans.

National Park Service - Rivers, Trails and Conservation Assistance program

Toolkit Contents

- 1. Workshop Preparation Check List
- 2. GIS Base Map Information Check List
- 3. Workshop Supplies Check List
- 4. Workshop Agenda Outline
- 5. Guidelines for Trail Focus Group Champions
- 6. Trail Focus Group Sign & Instructions
- 7. Trail Focus Group Table Setup
- 8. Workshop Process
 - **Step 1. SWOT Analysis**
 - Peel-Off Sheet Colored Dots (Strength, Weakness, Opportunity, Threat)

Step 2. Identify Community Assets

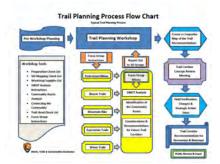

- Peel-Off Symbols Sheet (Custom sheet of icons for each Trail Focus Group)
 - Bicycle Touring
 - o **Equestrian**
 - Hiking
 - o Historic Routes
 - o Mountain Bike
 - Water/Paddle
 - o Off Highway Vehicle

Step 3. Connect the Community

- Marker color for each trail type
- Trailhead Facilities Check List

Step 4. Share Recommendations

- 9. PowerPoint Presentation Template (Explains the Four Step Planning Process)
- 10. Collected Information Matrix & Template
- 11. Composite Map of Trail Recommendations
- 12. GIS Master Plan & Trail Recommendations Matrix Template
- 13. Trail Planning Workshop Process Flow Chart
- 14. Appendix A: Additional Trail Focus Group Signs & Instructions

Trail Planning Workshop - Preparation Check List

The following committees and tasks will help the project partners to plan and prepare for a Community Trail Planning Workshop.

Worksl	nop Planning						
	Identify and select the workshop location						
	Identify and select potential workshop dates (Preferred and alternate dates)						
	Identify the workshop time frame (Start and finish time)						
	Prepare a Draft Workshop Agenda						
	Identify who should present background information on the study area						
	o Planning staff						
	Regional planning agency						
	o County or City Officials						
	o Trail User Groups, etc.						
	Contact and confirm potential speakers/presenters (Identify time limits for presentations)						
Commi	unity Outreach						
	List of stakeholders to invite						
	o Create the list with contact information						
	Methods of outreach						
	o Email invitation						
	 Personal phone calls to key stakeholders 						
	Workshop advertising						
	o Prepare a News Release						
	o Community Information Resources						
	 Links to existing community websites 						
	o Facebook, etc.						
Youth I	nvolvement						
	Determine how to outreach to schools or youth organizations in the study area						
	(Grade school to college)						
	Coordinate with other committees						
Worksl	nop Refreshments & Sponsors						
	Seek potential sponsors for the workshop to cover the cost of refreshments and lunch						
	Create a list for the refreshments and lunch						
	Identify the projected cost per person						

GIS Base Map Information Check List

Work with the county or regional planning agency to create the GIS Base Map for the Trail Planning Workshop. The recommended scale of the map for a county is 1'' = 1 mile or larger if possible. This will depend on the size of the county. Also provide enlarged scales of the cities within the county on the same map sheet or a separate sheet.

GIS Map Information

- Federal Roads
- State Roads
- County Roads
- Creeks, Rivers and Lakes
- Rail Roads (Active and inactive)
- Cities & Crossroads Communities
- All Federal, State and County Ownership (Public Land)
- Wildlife Management Areas
- Schools
- Flood Plains
- Utility Corridors
- Land Conservancy Areas/Preserves
- Existing Trails (Hiking, Biking, Mt. Biking, Equestrian, etc.)
- Share the Road Routes

Note:

Provide one set of maps (Cities and County) for each of the Trail Focus Groups (Hike/Pedestrian, Bicycle Touring, Mt. Biking, Equestrian, Water Trail, Historical Routes, etc., plus one set of maps to save for the Composite Map base.)

Trail Planning Workshop Supplies & Tools Check List

The following lists identify the recommended supplies and equipment for a Trail Planning Workshop.

Workshop Supplies & Tools List

Supplies	Total
Workshop Directional Signs (Guides for meeting participants to find the workshop)	Varies
Sign-In Sheets	5
Name Tags	75
Sharpie Markers	4
Easels	4
Flip Charts	4
Highlight Markers	Box
Tape (Clear and Drafting Tape)	1 each
LCD Projector and Screen for Laptop PowerPoint Presentations	1 each
Tables and Chairs (Focus group tables for up to 10 people)	5 groups min
GIS Maps of the Study Area (May need enlarged city maps of the cities in the study area)	1 each/group
Camera	1
Refreshments table and trash can	1 each
Light food and drinks, ice	Varies

Trail Focus Groups Table Supplies List (For each of the Trail Focus Groups)

Supplies	Per Focus Group	Total
Pencils	5	25
Pens	2	10
Highlighter Markers (Colors vary by Trail Focus Group)	3	15
Thin Markers	6	30
Post-it Note Pads (3x3)	1	5
Small Post-It-Note Pads (1x1)	1	5
Spiral Notebook (8 1/2x11) – Different color notebook for	1	5*
each Focus Group table. To be used to record the ideas and		
recommendations for each of the workshops by Focus Group		
Peel-off Map Symbols Sheet (Specific to each Trail Focus	2	10*
Group)		
Dots for SWOT (Blue, Yellow, Green, Red - 1/4" dia.)	1/2 Sheet	5*
Trailhead Recommendations Check List	4= 2 Sheets	10 Sheets*
Trail Champion Guidelines (One for each Focus Group)	1	5*

^{*} There may be other potential Trail Focus Groups included in a workshop such as: Historical Routes, Off-Highway Vehicles (OHV), Motor Routes (Car and Motorcycle), etc. If additional Focus Groups are included increase the amount of supplies accordingly.

Project Name Trail Planning Workshop - Agenda Outline

Date, Place & Time

(customize this Agenda Outline to your project needs)

I. Welcome, Introductions & Meeting Purpose

II. Share Background Information on the Study Area

- a. Study Area & Trail Planning Considerations
- b. Existing Trails and Planning Efforts
- c. Regional Goals
- d. Trail Town Opportunities

Presenters: ? ? ?

III. Break

IV. Trail Focus Groups Breakout

- a. Trail Focus Group Champions
- b. Breakout Groups
 - i. Hiking/Pedestrian
 - ii. Bicycling
 - iii. Equestrian
 - iv. Mountain Biking
 - v. Blueway/Paddling
 - vi. Historical Routes

Trail Focus Group Champions ? Hiking ? Bicycling ? Equestrian ? Mt. Biking ? Blueway/Paddling ? Historical Routes

c. Overview of the process and instructions (4 Steps)

- i. SWOT Analysis
- ii. Identify Community Assets
- iii. Connecting the Community
- iv. Sharing Recommendations

d. Report Back from the Trail Focus Groups

- i. Identify the top three recommendations or priorities
- ii. Present the Trail Focus Group's recommendations to all of the meeting participants

V. What we have Learned

a. Summarize the Recommendations and Opportunities of the Workshop

VI. Next Steps of the Trail Planning Process

- a. Create a Composite Map of the Greenway & Blueway Trails Recommendations
- b. Review Meeting of the Composite Map Greenway & Blueway Trails Recommendations
 - i. Review Meeting (Date, time and location)

VII. Adjourn

Trail Planning Workshop

Guidelines for the Trail Focus Group Champions

Trail Focus Group Champion

- One champion is needed for each of the trail focus groups (Committee member or volunteer)
 - Hiking/Pedestrian
 - o Bicycle
 - o Mountain Biking
 - o Equestrian
 - o Water/Paddle
 - o Historical Routes
 - o Other
- Prefer to have the same Champion for the same Focus Group at all of the proposed Workshops scheduled for the project, if possible.

Tasks

- Coach the group in the following four steps:
 - SWOT Process
 - o Identify Community Assets
 - Connecting the Community
 - o Sharing Recommendations
- Encourage everyone In the group to participate
- Capture the shared information/recommendations
 - Post-It Notes
 - Notebook for notes (Color coded by trail type color for each Focus Group)
 - Please record the information shared in the notebook
 - SWOT Analysis
 - Community Assets
 - List of Proposed Trail Recommendations
 - Record the TOP 3 RECOMMENDATIONS of the group
 - Please label all maps, notes, etc. with the title for the Focus Group (Hike, Equestrian, Bicycle Touring, Mt. Bike, etc.)
- Request the group to assign a spokesperson or team to present the recommendations
- Ask the group to identify their top 3 recommendations and include them in your notes
- Make sure that all of the post-it-notes are secured to the base map
- At the end of the workshop turn in the notebooks, notes and maps to the workshop facilitators
- Be prepared to share the information and recommendations after the workshops with the
 Steering Committee and the National Park Service -Rivers, Trails & Community Assistance Staff
 so they can prepare a composite map of the trail corridor recommendations and the
 information matrix from all of the Trail Focus Groups that participated at the Workshops. This is
 often a separate meeting soon after the Trail Planning Workshops are completed.

Trail Focus Group Table Sign & Instructions

- ☐ Use the template provided and change the title (name of focus group) to identify each of the Trail Focus Groups in the workshop.
- □ Provide a double sided sign and instructions for each Trail Focus Group table.
- ☐ The sign and instructions identify the Trail Focus Group table location and it will provide a quick reference for the workshop planning process participants.

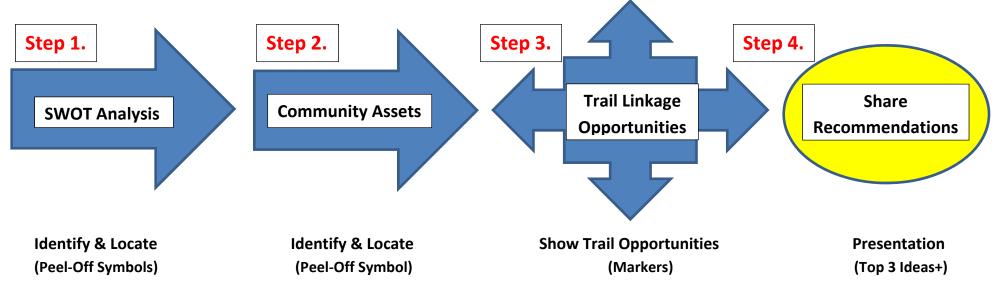

HIKING TRAIL OPPORTUNITIES

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- 1. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

(ADD FOCUS GROUP TITLE HERE) TRAIL OPPORTUNITIES

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

SWOT Analysis

This is a warm up exercise to engage the trail focus group and collectively share knowledge of the study area. Place a colored stick-on dot on the map where the following categories are applicable and label the item in the notebook. Please identify the item with the number for each category in the notebook.

Strengths	Advantages		Green
Weakness	Disadvantages	0	Yellow
O pportunities	Dreams		Blue
Threats	Trouble/Challenges		Red

Note:

Provide one half of a sheet of the small colored dots for each trail focus group from the SWOT Analysis Master photocopied onto an AVERY No. 5667 - Clear, Easy Peel, Return Address Labels (80 per sheet)

Trail Focus Group Process Step 2. Identify Community Assets

This is an opportunity to identify what makes your community unique by identifying the existing cultural and natural resources, special places, places of historical significance, and potential ideas to consider for trail planning. Please share and capture your knowledge of the study area by placing and identifying the peel-off symbols provided onto the base maps.

Mapping Peel-Off & Stick Symbols (Community Assets - What is Here and Where?)

Please use the peel-off symbols on the attached sheets to identify the following elements on the Base Map and record the names in the notebook:

- Cultural Features
- Historical Features
- Special Places
- Services/Businesses
- Potential Trail Towns
- Ideas to Consider
- Potential Trail Hazards
- Trailhead Locations

Please use the trail symbols on the attached sheets to identify your recommended trails, amenities and Trail Head Locations in **Step 3**.

Connect the Community.

Clear Peel-Off Symbols Sheet

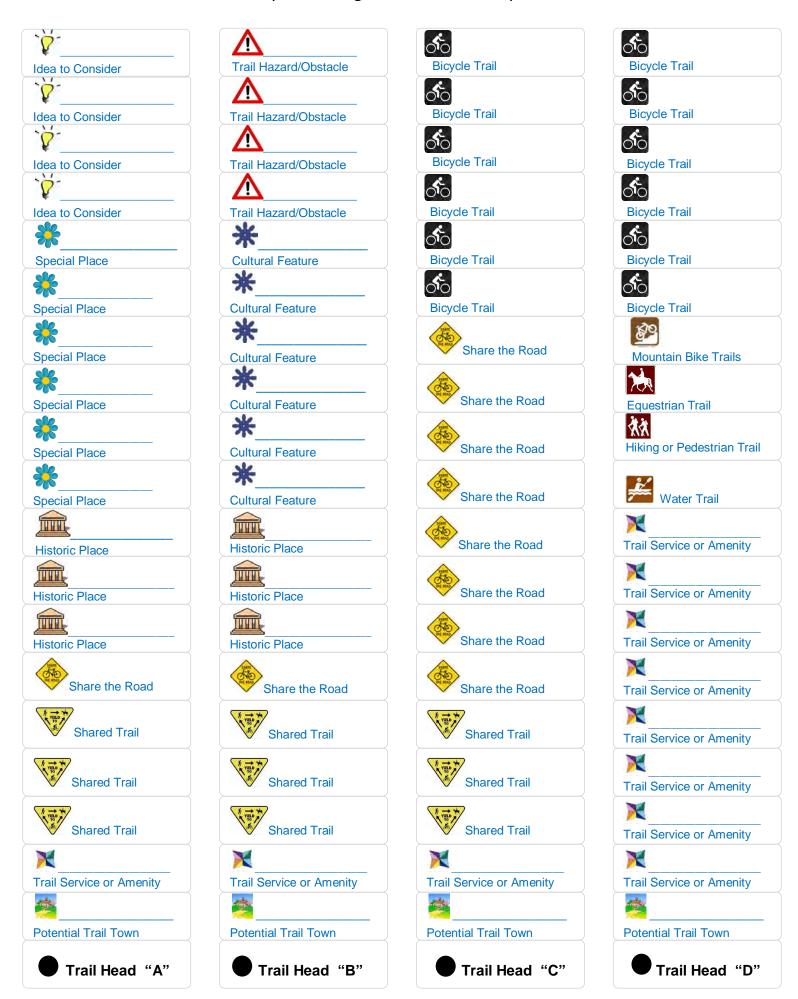

A customized Peel-Off Symbols sheet is provided for each of the Trail Focus Groups Tables.

Note:

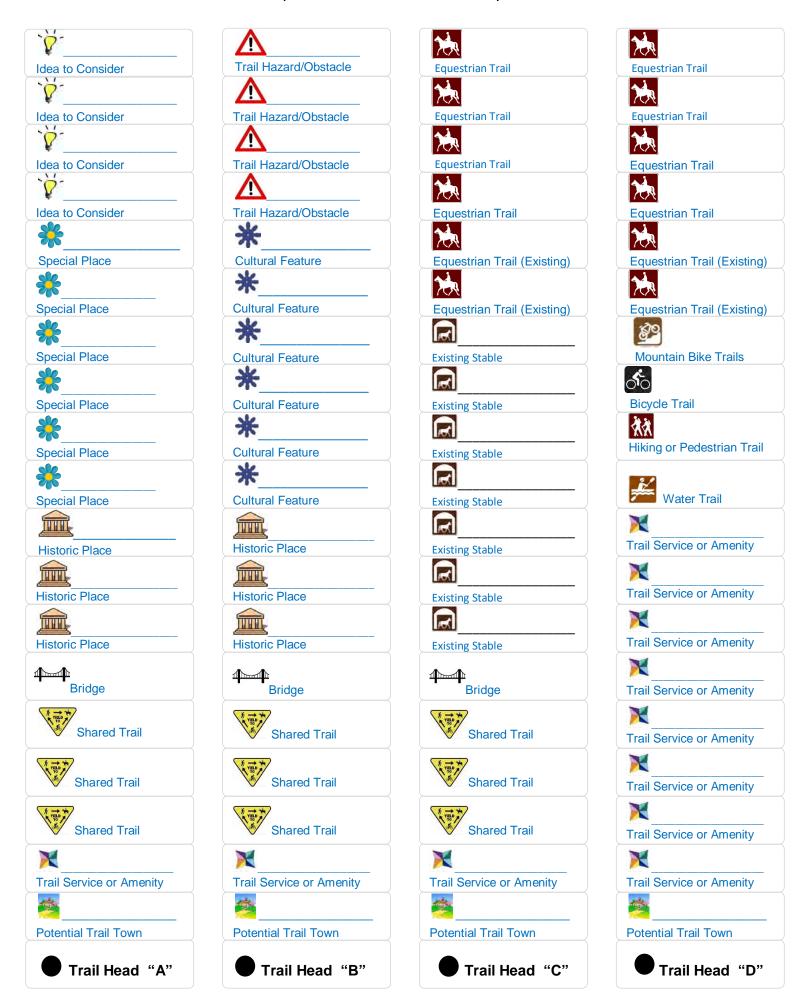

Provide one or two sheet of clear peel-off and stick symbols for each of the Trail Focus Groups
(Hike/Pedestrian, Bicycle Touring, Mountain Biking, Equestrian, Water Trail, Historical Routes, OHV, etc.)
Use the master copy provided to make the peel-off symbols on the AVERY No. 5667 - Clear, Easy Peel, Return Address Labels

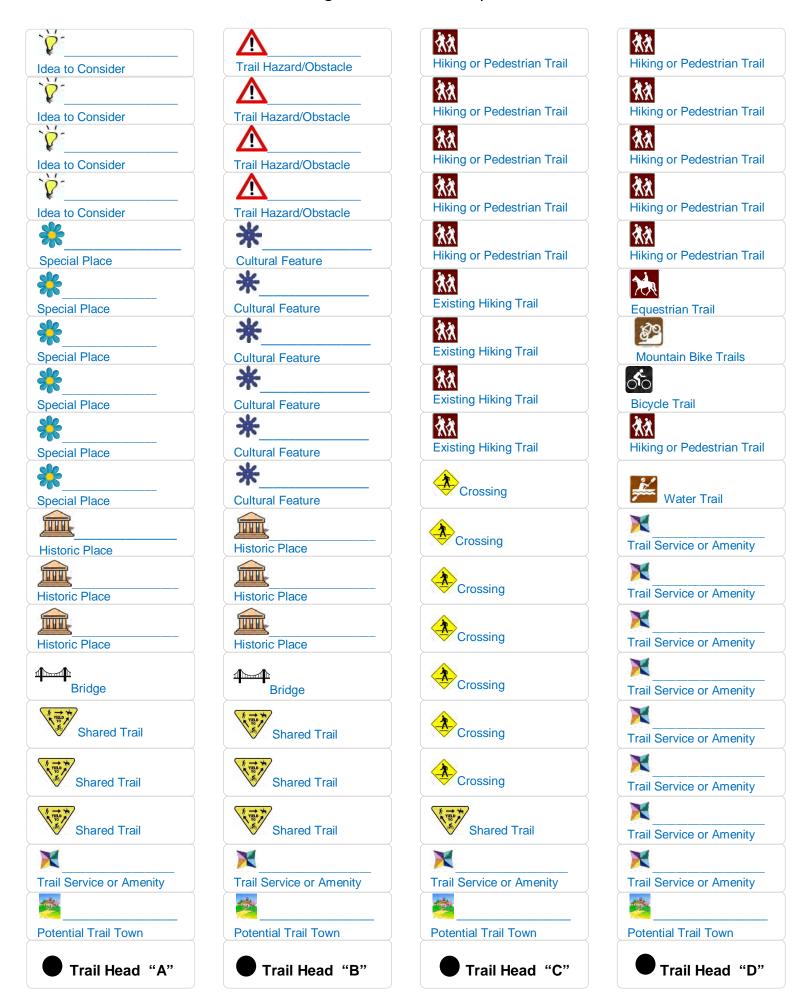

Bicycle Touring - Peel-Off & Stick Symbols

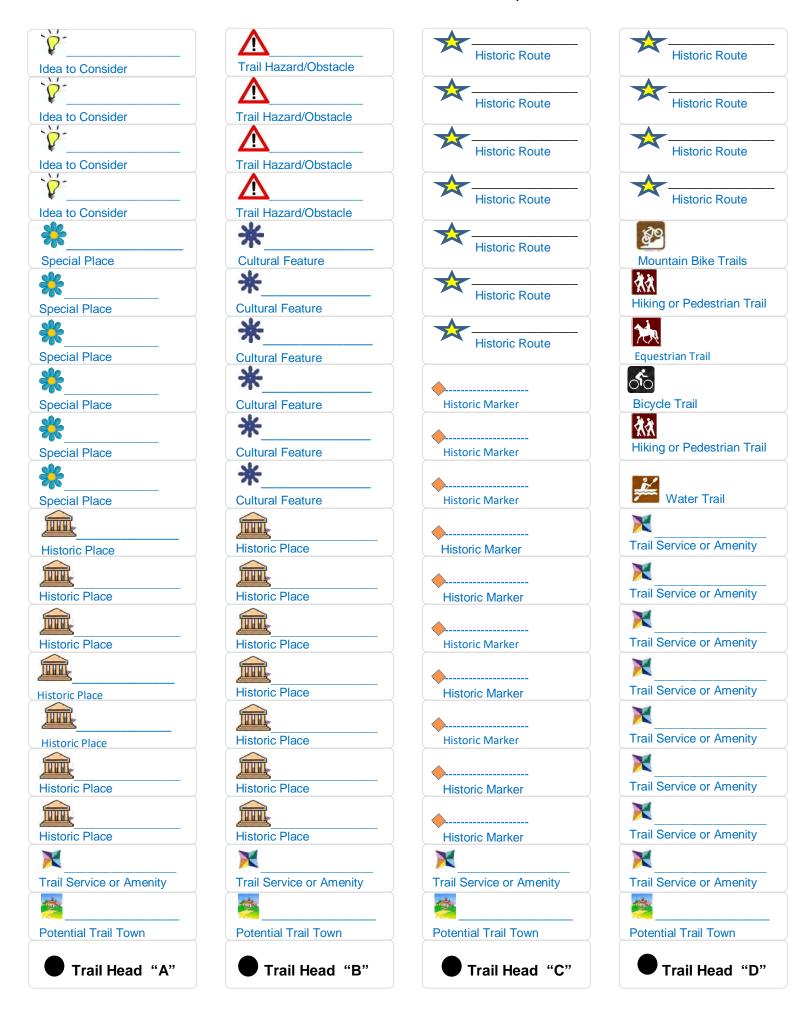

Equestrian - Peel-Off & Stick Symbols

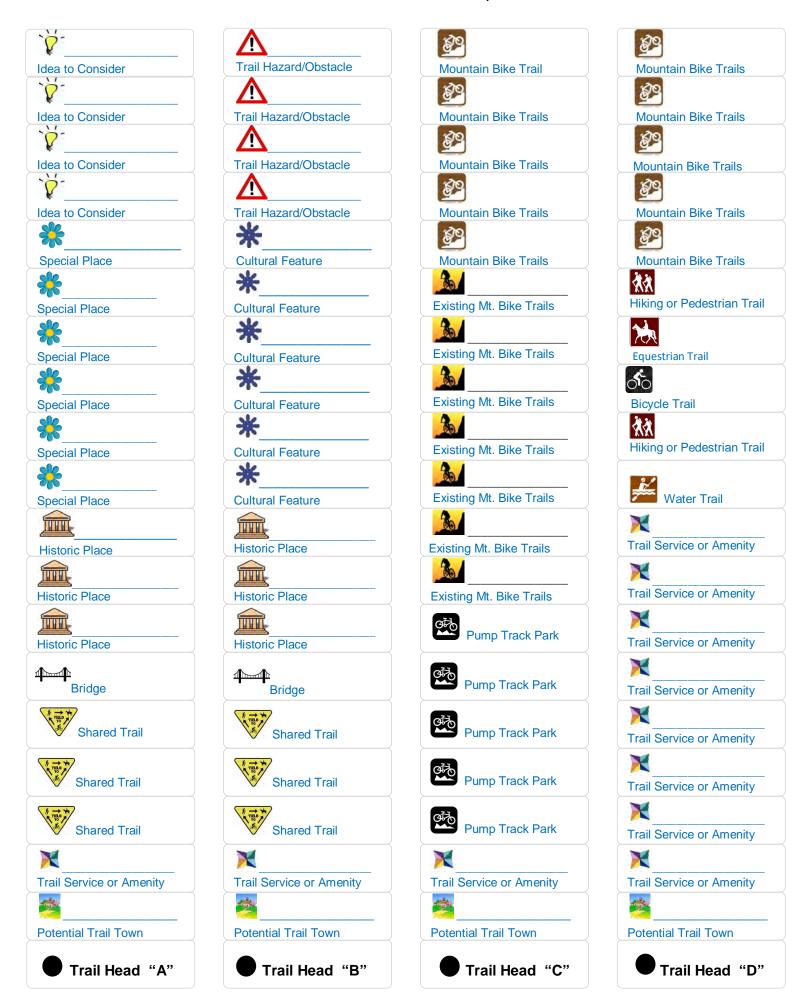

Hiking - Peel-Off & Stick Symbols

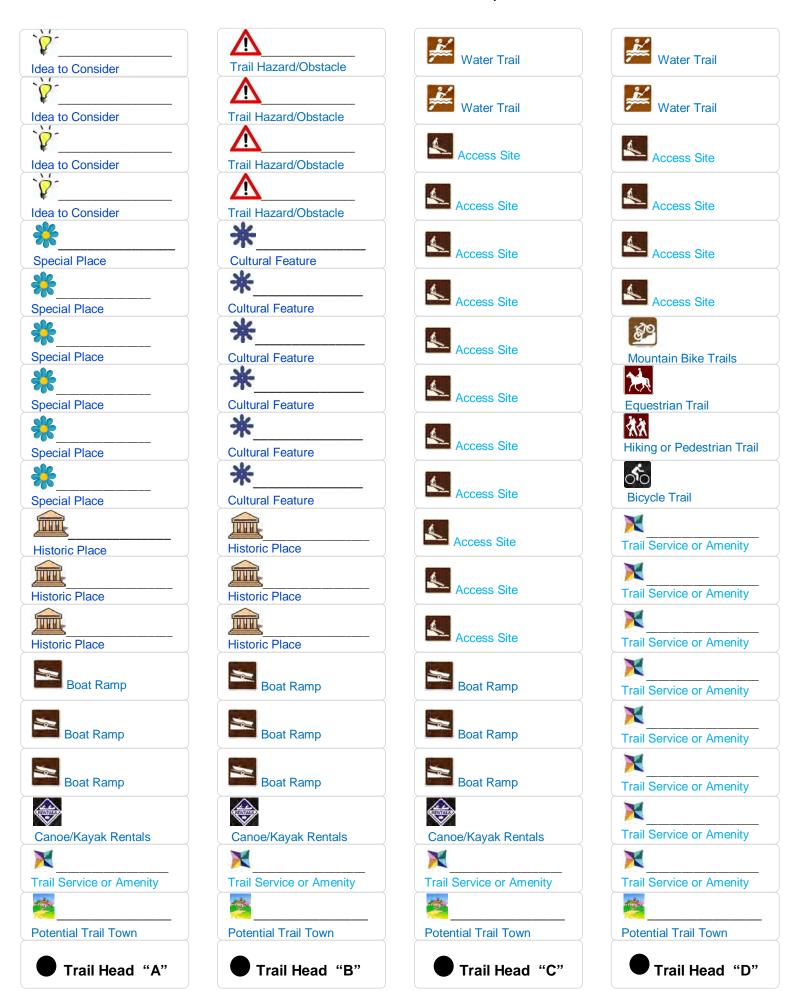

Historic Routes - Peel-Off & Stick Symbols

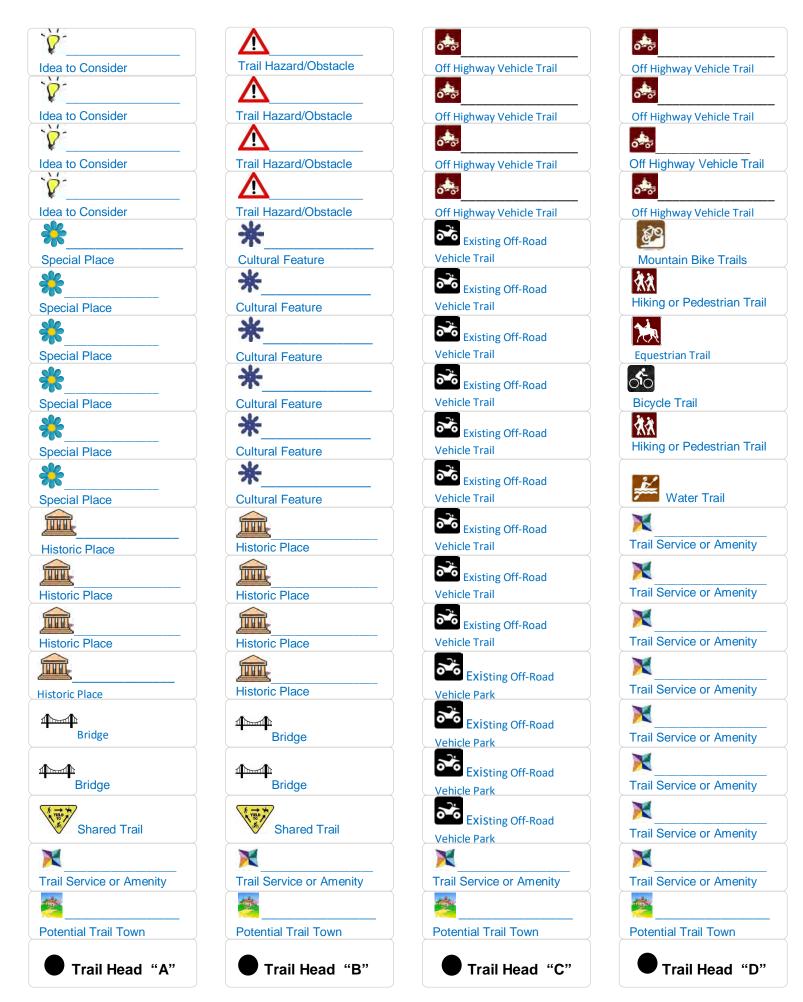

Mt Bike - Peel-Off & Stick Symbols

Water Trail - Peel-Off & Stick Symbols

Off Highway Vehicle Trails - Peel-Off & Stick Symbols

Trail Focus Group Process Step 3. Connecting the Community

This is where the fun and the dreams begin. Identify the highest priority items to link with trails and begin connecting these community assets with trails. Please use the markers to identify the recommended trail corridors and identify the trail user groups by placing user group symbols on the route. List and identify your recommendations on the map.

Please us the following trail user group colors to illustrate your recommendations:

	Trail Type	Marker Co	lor
•	Hiking	Rec	l
•	Bicycle	Ora	nge
•	Mt. Bike	Pur	ple
•	Equestrian	Gre	en
•	Water	Blu	e
•	Multi-Use	Bla	ck
•	OHV	Bro	wn
•	Historic/Byway	Pin	k

Identify where potential **Trailhead Facilities** should be considered to access the proposed trail corridors.

- Identify the trailhead locations with the peel-off symbol "A", "B", "C", etc.
- Use the Trailhead Check List to identify what features the trail head should include. Identify each Trailhead Check List with the corresponding location "A", "B", "C", etc. as located on the map.

When this exercise is completed your trail focus group will be asked to present/share your recommendations to the large group.

 Please label all drawings, notes, post-it notes, etc. with your trail user group name (Hiking/Pedestrian, Bicycle Touring, Mt. Biking, Equestrian, Water, etc.)

Note:

Provide Focus Group Instructions sheet, pens, pencils, colored markers, post-it notes and note pad for each of the focus trail groups.

Provide a minimum of two Trail Head Check List sheets per trail focus group (4 Trail Head Check Lists/group)

Trailhead - "A"

Recommended Trailhead Facilities Check List

Please identify with a checkmark which of the following facilities should be provided at this Trailhead location:

Ш	Auto parking
	Accessible parking
	Equestrian truck & trailer parking
	Overflow parking allowances
	Bicycle racks
	Trail Information Kiosk
	Trail access
	ADA accessibility
	Drinking fountain
	Water trough
	Toilet building
	Seating
	Waste receptacles
	Lighting
	Shade (structures & trees)
	Picnic tables
	Group fire ring
	Mounting ramp
	Manure disposal
	Highline or corral
	Hitch Rails
	Arena or round pen
	Rustic Equestrian Camping area

NOTE:

Please use this Trailhead Check List for the proposed **Trailhead "A"** location on the map from the Peel-Off Symbol Sheet.

Trailhead - "B"

Recommended Trailhead Facilities Check List

Please identify with a checkmark which of the following facilities should be provided at this Trailhead location:

Auto parking
Accessible parking
Equestrian truck & trailer parking
Overflow parking allowances
Bicycle racks
Trail Information Kiosk
Trail access
ADA accessibility
Drinking fountain
Water trough
Toilet building
Seating
Waste receptacles
Lighting
Shade (structures & trees)
Picnic tables
Group fire ring
Mounting ramp
Manure disposal
Highline or corral
Hitch Rails
Arena or round pen
Rustic Equestrian Camping area

NOTE:

Please use this Trailhead Check List for the proposed **Trailhead "B"** location on the map from the Peel-Off Symbol Sheet.

Trailhead - "C"

Recommended Trailhead Facilities Check List

Please identify with a checkmark which of the following facilities should be provided at this Trailhead location:

Auto parking
Accessible parking
Equestrian truck & trailer parking
Overflow parking allowances
Bicycle racks
Trail Information Kiosk
Trail access
ADA accessibility
Drinking fountain
Water trough
Toilet building
Seating
Waste receptacles
Lighting
Shade (structures & trees)
Picnic tables
Group fire ring
Mounting ramp
Manure disposal
Highline or corral
Hitch Rails
Arena or round pen
Rustic Equestrian Camping area

NOTE:

Please use this Trailhead Check List for the proposed **Trailhead "C"** location on the map from the Peel-Off Symbol Sheet.

Trailhead - "D"

Recommended Trailhead Facilities Check List

Please identify with a checkmark which of the following facilities should be provided at this Trailhead location:

Auto parking
Accessible parking
Equestrian truck & trailer parking
Overflow parking allowances
Bicycle racks
Trail Information Kiosk
Trail access
ADA accessibility
Drinking fountain
Water trough
Toilet building
Seating
Waste receptacles
Lighting
Shade (structures & trees)
Picnic tables
Group fire ring
Mounting ramp
Manure disposal
Highline or corral
Hitch Rails
Arena or round pen
Rustic Equestrian Camping area

NOTE:

Please use this Trailhead Check List for the proposed **Trailhead "D"** location on the map from the Peel-Off Symbol Sheet.

Trail Focus Group Process Step 4. Sharing Recommendations

Each Trail Planning Focus Group will be asked to share their recommendations with all of the Workshop participants after the breakout session.

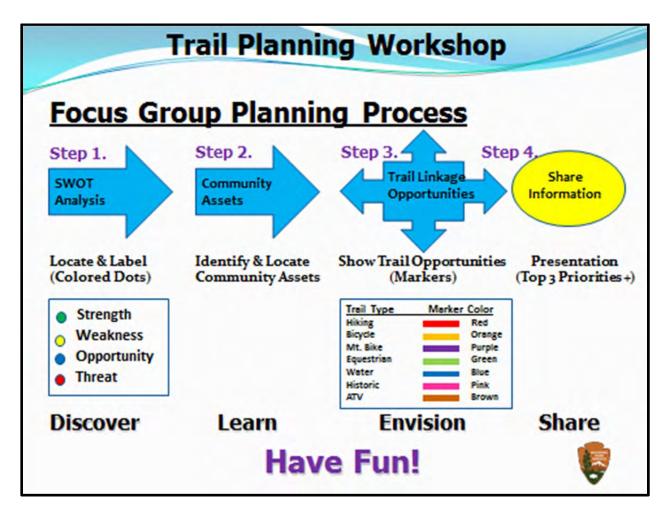

- Select a spokesperson to present your Focus Group's Recommendations
- Identify your group's **Top Three Ideas and/or Recommendations**
- Please label all of the drawings, notes, post-it notes, etc. with your trail user group name (Hiking/Pedestrian, Bicycle Touring, Mt. Biking, Equestrian, Water, etc.)
- Please make sure that all of the information on the map is secured and/or taped down to prevent it from falling off the map

Trail Planning Workshop PowerPoint Presentation

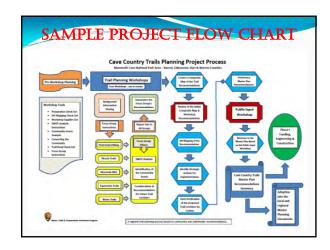

- ☐ A PowerPoint presentation template has been created to explain the Trail Planning Workshop break-out groups' process. This presentation identifies the four step process for the Focus Groups so they will have an understanding of what they are being asked to do so we can capture their knowledge/input.
 - Customize the PowerPoint presentation to fit the project parameters as needed.

Note:

This is the PowerPoint slide to display during the Trail Focus Group break-out session of the workshop. It will help to provide a quick reference of the process for the meeting participants.

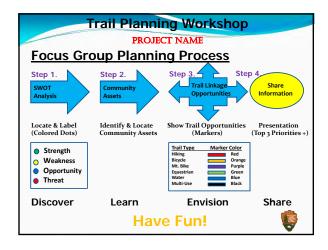

Collected Information Matrix

- o Capture the information from the post-it-notes and notebooks onto a matrix for each of the Trail Focus Groups by county or region.
- This will provide a quick overview of the information collected for the following categories:
 - o Strengths Weaknesses Opportunities Threats
 - o Trailheads, Cultural Features, Special Places, Historical Sites
 - o Recommendations
- This collected information from the workshops will be the basis for a future project strategic planning process
- The first draft of the Information Matrix should be available for the scheduled Follow-Up Meeting after the Workshops so that it can be reviewed along with the Composite Map of Trail Recommendations by the workshop participants.

				Planning Workshops			
				from the May 2, 3 & 4, 2			
Frail Group	Strengths	Weaknesses	Opportunities	Threats	Trailheads	Cultural Features	Special Place
Water/Paddle	Aesthetics of the region	No public access	Expand Blueways the entire	Sites isolated - prone to			Path of Thomas
	Multi-recreational	People unwilling to provide	length of Lee, Claiborne &	vandalism (may need			Walker into KY

Note:

Recommend printing the matrix on 11" 17" paper and one sheet per Trail Focus Group (Double sided if necessary). See the attached Excel file for a template and customize it for your project.

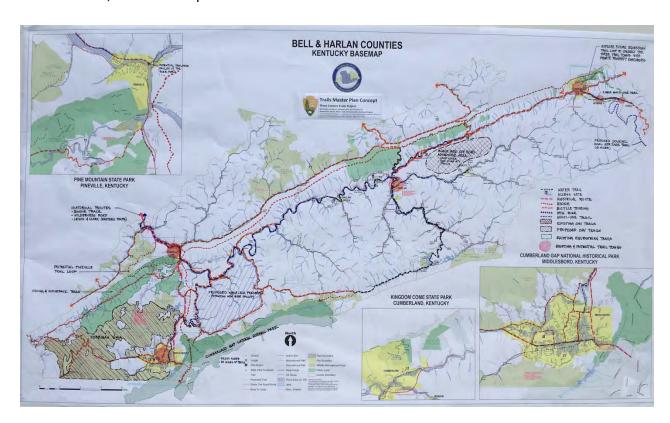

Project Name Trail Planning Workshops Matrix

Participant's Recommendations from the (Insert the Dates) Workshops

Trail Group	Strengths	Opportunities		Cultural Features	Special Place	Recommendations
Equestrian						
Updated 00/00/00						
						AFT

Composite Map of Trail Recommendations

- Create Composite Map with all of the trail recommendations from the Trail Planning Workshops on a single base map for each of the counties or regions. (Make sure you have an extra set of base maps printed for this effort.)
- Use the same trail color markers for each trail group as recommended for the workshop or a black marker to identify multi-use trails and provide a legend.
- This map is a first draft of what the recommendations are from the workshop participants and it will change based on additional input and field verification. This map with any recommended changes will be provided to the GIS department that will transform the hand drawn trail recommendations map into a GIS map. (Establish who will provide this service at the time the base maps are prepared, so that the GIS files can be shared.)
- The Composite Map of Trail Recommendations and the Collected Information Matrix should be reviewed by the workshop participants at a scheduled Follow-Up Meeting for review, additional input and comments.

Proposed Trails Matrix & Field Verification

Identify each of the proposed new trail segments from the Trail Planning Workshops by
a Name, Description, Location, Users, Public or Private Ownership, Approx. Distance,
Surface, etc.
The Proposed Trails Matrix Template provides a way to quickly begin to capture the
information related to each of the proposed trail corridors.
Recommend creating a committee to do a general windshield survey and topographic
map review of the recommended new trail routes. This is effort is to determine if the
proposed trail corridors may work in a general sense.
The committee's review and summary of the Windshield Survey & Topographic Review
should be summarized by county or region.
The General Windshield Survey & Topographic Map Review should be presented at the
Follow-Up Meeting for additional discussion on the proposed trail corridors.

GIS Master Plan Mapping

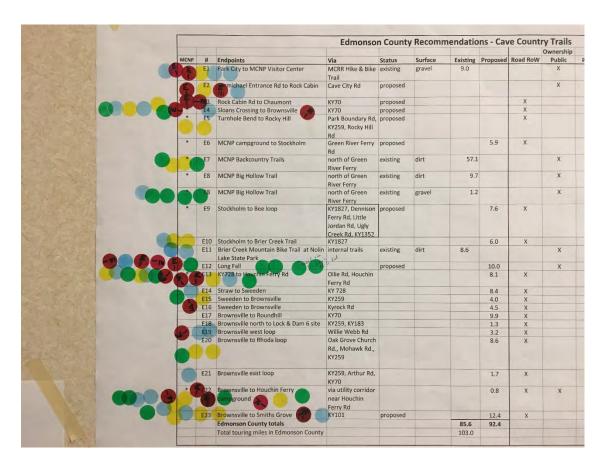

- ☐ Create a GIS Master Plan Map for each of the counties or regions identifying existing and proposed trail systems based on the Composite Map and Follow-Up Meeting Reviews. A regional planning agency may be the best source for the GIS mapping. The agency that creates the GIS Base Maps will be the best source for the GIS Master Plan mapping and this will need to be worked out in the beginning of the project planning process.
- ☐ A GIS Master Plan Map should be created for the entire region of the study area to provide the total picture of the recommendations generated from the Trail Planning Workshops.

Cave Country Trails Master Plan map prepared by the Barren River Area Development District for the four counties surrounding Mammoth Cave National Park.

Prioritizing Proposed Trails Guidelines

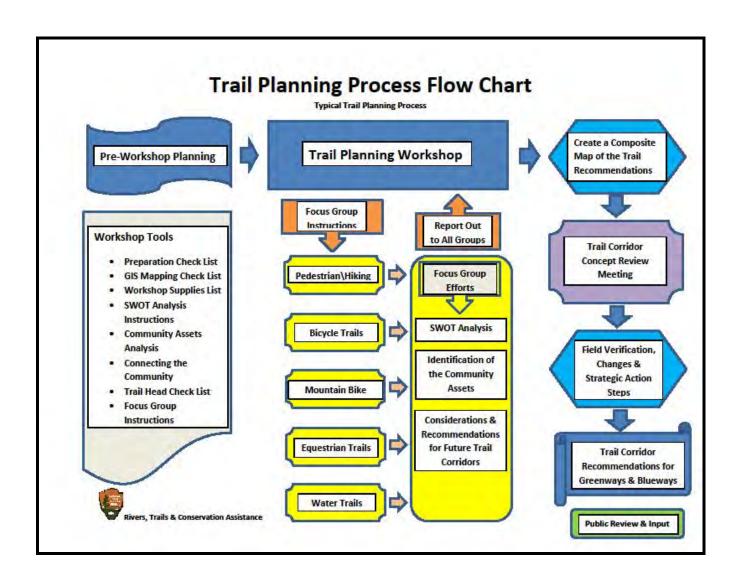

- ☐ Enlist the assistance of the Trail Planning Workshop Participants in a facilitated discussion and priority voting exercise to identify their priorities for the proposed trails in each county or region.
- □ Print large format (24" x 36") copies of the Proposed Trails Matrix for each county and post them on the walls around the room next to the GIS Master Plan map for the same county.
- After summarizing the maps and the lists of the proposed trails provide each meeting participant with a strip of 5 colored dots for each county. Identify that the red colored dot will be their Number 1 Priority for the county and the other colored dots are their other priorities of equal value. This exercise will provide the project partners with an idea of what proposed trails are the most important in the study area to the community participants.

Cave Country Trails Project Propose Trails Priority Voting expample.

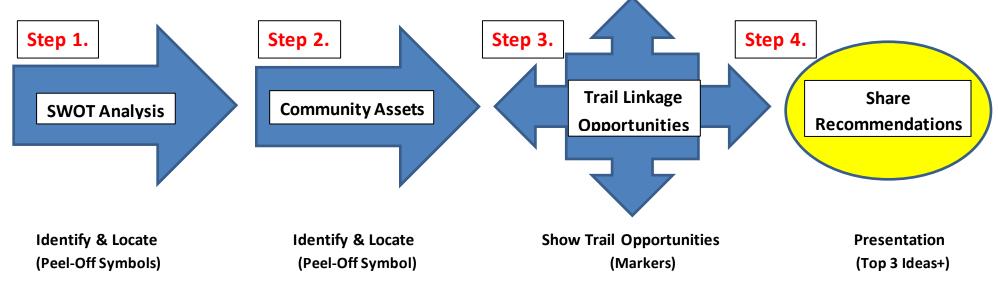

Trail Planning Process Flow Chart

- ☐ A Trail Planning Workshop Process Flow Chart has been provided to illustrate the overall planning process. This flow chart should be customized to the needs of the project. There may be several additional steps after the workshop to help verify and review the trail recommendations in the study area.
- ☐ This flow chart should be based on the agreed project work plan.

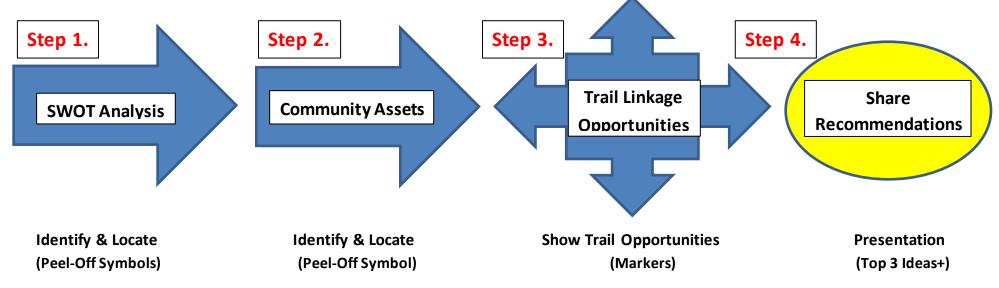

Bicycle Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

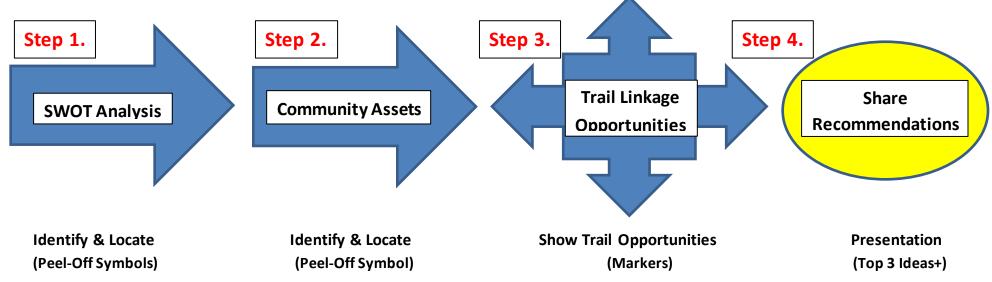

Hiking Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

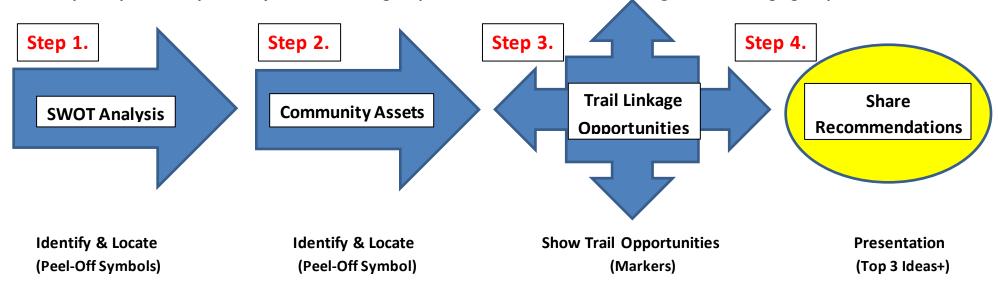

Equestrian Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

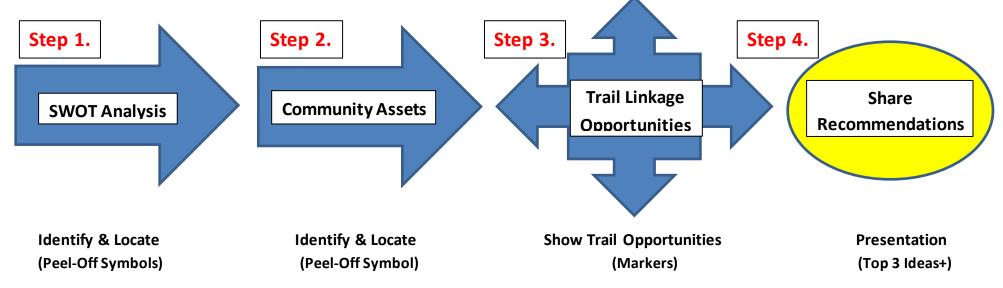

Mt. Bike Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

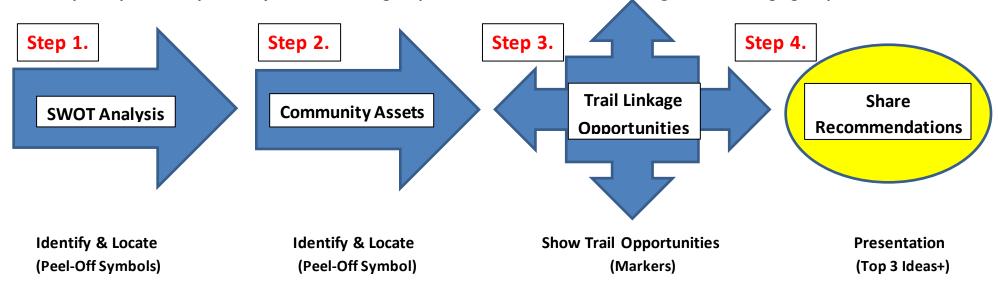

Water Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

Historical Routes Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group

ATV Trail Opportunities

- A. Apply your creative imagination and local knowledge Have Fun!
- B. Identify community assets that should be linked with trails (Parks, natural areas, schools, neighborhoods, businesses, etc.) Use the Peel-Off Symbols, place them on the maps to locate the community assets and label them.
- C. Identify potential hazards/concerns for your trails by placing a red dot to locate the hazard/concern and label them.
- D. Discuss and brainstorm ideas for potential trails to link the existing community assets and known existing trails
- E. Show where proposed trails could be considered with the markers on the maps
- F. Use the post-it notes to identify additional ideas, opportunities or concerns and place them on the maps
- G. Please show all of your recommendations on the maps where possible
- H. Please identify (Note pad) what additional information you would like to know to do a better job of trail planning
- I. Spokesperson to present your trail focus group's recommendations and thoughts to the large group
