DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

French colonial cedar Poteaux-sur-solle house, main floor with attic and cellar (ca. 1800). Exterior walls are covered with weatherboarding, painted white. Roof is supported by original Norman truss. Hips of original hip roof were extended, at unknown date, to form full end gable walls with windows. Roof rafters in area of extension constructed of 2 x 4 inch lumber instead of the type of hewn beams used elsewhere in the roof framework.

One original casement window is on west wall of house and opens onto the rear galerie. All other windows in house converted to double-hung sash.

Several interior partitions added subdividing the original space of both the chambre, located to the right (north) as one enters front door, and the salle de milieu, on the left (south) of front door entry. The central hall or passageway connects east and west outside entrance doors.

Facade (east) and rear (west) galeries five bays wide. Rear galerie now glassed in sun porch. North end of rear (west) galerie was enclosed to provide former kitchen which is now used as dining room.

Two story brick slavequarters with ridge roof attached to rear (west) of former kitchen (originally north portion of rear galerie), forming an "L" with main block and rear galerie of house.

A brick, 20 x 30 feet two story barn (converted to guest house) located at southwest corner of property. Barn dates 30-40 years later than main house.

The property was extensively renovated in 1931 by the present owner and her husband, Mr. and Mrs. Jules Felix Valle, Jr.
