- FIRE PREVENTION RULES**
- 1 - **MATCHES** - Be sure your match is out. Break it in two before you throw it away.
 - 2 - **SMOKING** - Be sure that pipe ashes and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves, or needles. When in the woods smoke only in places of habitation, at improved campgrounds, or at carefully selected rest and camp sites - never while travelling.
 - 3 - **MAKING CAMP** - Use fire grates at improved campgrounds and observe the rules for building and extinguishing fires. Before building a campfire of places where no grates are available, scrape away all inflammable material from a place about four feet in diameter. Keep your fire small. Never build it against trees or logs, or near brush.
 - 4 - **BREAKING CAMP** - Never break camp until your fire is out, dead out. Stir the coals while soaking them with water, turn burned sticks and drench both sides. Wet the ground around the fire and be sure the last spark is dead.
 - 5 - **BONFIRES** - Never build bonfires or burn slash or brush in windy weather or while there is the slightest danger that the fire will get away.
