Office Memorandum • UNITED STATES GOVERNMENT

TO : R. L. Deering
 FROM : C. E. Everhart
 SUBJECT:

DATE: 11/6/46

We are getting settled in pretty good shape - lots of work in arranging desks, cleaning, supplies, etc but now have things in good shape.

The telephone is being installed now and the number is:

Eureka 3836

Have the very simplest installation consisting of two phones on one line with a buzzard system between the two offices.

Glenn did a swell job in getting up our supplies, forms etc and would appreciate it very much if you could say a good word to him. He did a gemanic job helping me the first day in polishing desks, etc.

R/W Not a glummer yet on housing and though I am not too - bad off. George

is having a tough time and seem to be getting a little discouraged in house hunting.

Everything else is under control and we're making it fine. Monahan news release on the establishment of the unit got very wide publicity and did a great deal to clarify the Combat Spark vs FDR confusion.
