

# BLASTING SIGNALS

## FOR USE ON LOOKOUT STATIONS

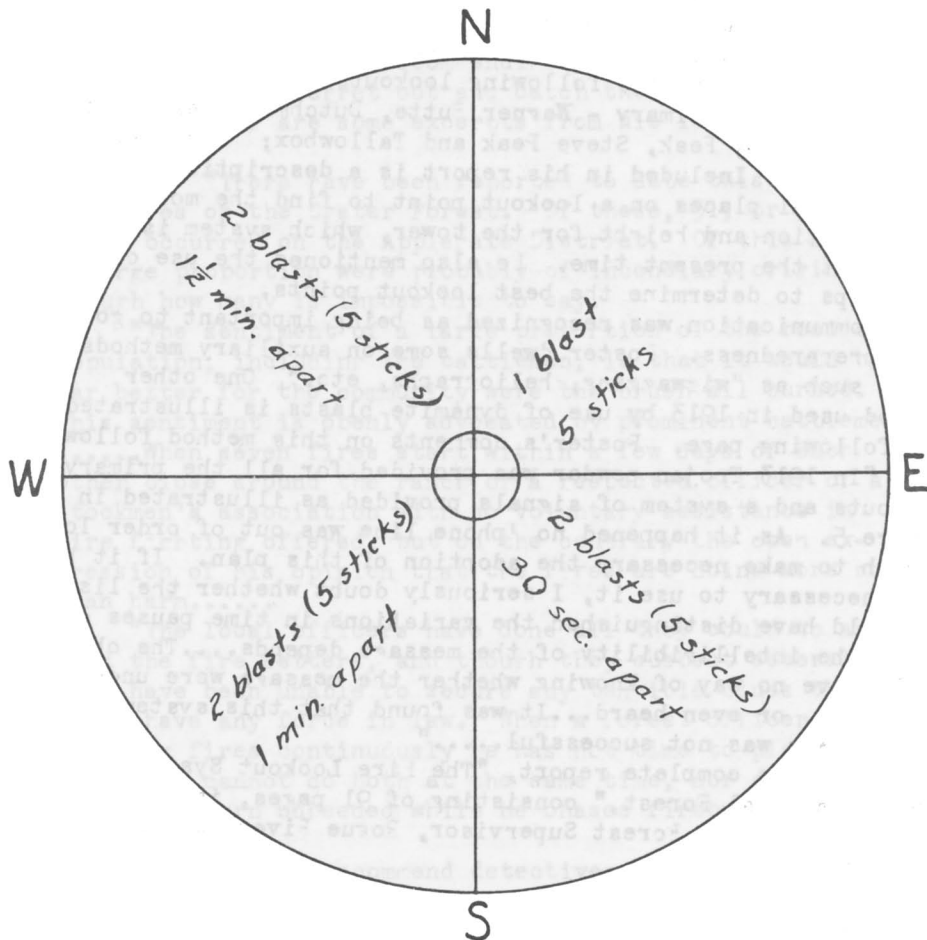

### CRATER NATIONAL FOREST

Fig. 5

One large blast (7 sticks powder) to indicate any fire.

Then wait 3 minutes and set off:

- (1) For NE direction, one additional blast (5 sticks)
- (2) For SE direction, two additional blasts 30 seconds apart (5 sticks)
- (3) For SW direction, two additional blasts 1 minute apart (5 sticks)
- (4) For NW direction, two additional blasts  $1\frac{1}{2}$  minutes apart (5 sticks)

If the fire is from 5 to 10 miles distant set off one additional blast 3 minutes later.

If more than 10 miles away set off, 3 minutes later, two additional blasts about 30 seconds apart.

M.L. ERICKSON, FOREST SUPERVISOR.
