

Fish Species Found in Voyageurs' Four Large Lakes

Voyageurs National Park fish distribution from collecting done by Voyageurs, US Geological Survey, and Minnesota Department of Natural Resources personnel. Identifications done by Larry Kallemeyn or MNDNR biologists. Longear sunfish identifications were confirmed by Dr. Underhill from the University of Minnesota.

Scientific Name	Common Name						
<i>Ichthyomyzon unicuspis</i>	Silver lamprey	P	P	P	P		
<i>Acipenser fulvescens</i>	Lake sturgeon	P	P	P	P		
<i>Hiodon tergisus</i>	Mooneye		P		P		
<i>Couesius plumbeus</i>	Lake chub				P		
<i>Hybognathus hankinsoni</i>	Brassy minnow	P					
<i>Luxilus cornutus</i>	Common shiner	P	P	P	P		
<i>Margariscus margarita</i>	Pearl dace						
<i>Notemigonus crysoleucas</i>	Golden shiner	P	P	P	P		
<i>Notropis atherinoides</i>	Emerald shiner	P	P	P	P		
<i>Notropis heterodon</i>	Blackchin shiner				P		
<i>Notropis heterolepis</i>	Blacknose shiner	P	P	P	P		
<i>Notropis hudsonius</i>	Spottail shiner	P	P	P	P		
<i>Notropis volucellus</i>	Mimic shiner	P	P	P	P		
<i>Phoxinus eos</i>	Northern redbelly dace	P	P	P	P		
<i>Phoxinus neogaeus</i>	Finescale dace	P	P	P	P		
<i>Pimephales notatus</i>	Bluntnose minnow	P	P	P	P		
<i>Pimephales promelas</i>	Fathead minnow	P	P	P	P		
<i>Rhinichthys atratulus</i>	Blacknose dace	P	P		P		
<i>Rhinichthys cataractae</i>	Longnose dace	P	P				
<i>Catostomus catostomus</i>	Longnose sucker				P		
<i>Catostomus commersoni</i>	White sucker	P	P	P	P		
<i>Moxostoma anisurum</i>	Silver redhorse	P	P	P	P		
<i>Moxostoma macrolepidotum</i>	Shorthead redhorse	P	P	P	P		
<i>Ameiurus melas</i>	Black bullhead	P	P	P	P		
<i>Ameiurus nebulosus</i>	Brown bullhead				P		
<i>Noturus gyrinus</i>	Tadpole madtom	P	P	P	P		
<i>Esox lucius</i>	Northern pike	P	P	P	P		
<i>Esox masquinongy</i>	Muskellunge				P		
<i>Umbra limi</i>	Central mudminnow
