

# CLIFF DWELLING

FLAGSTAFF

#7-C

2016

National Park Service  
CENTENNIAL

WALNUT CANYON  
NATIONAL MONUMENT

MADE FROM

Kaibab limestone

CANYON DEPTH

600 Ft

BUILT BY

Ancestral Puebloans

FUN FACTS #7-c

The exposed limestone that forms the upper third of the canyon walls occurs in layers of varying hardness. Some layers eroded more rapidly, forming shallow alcoves.
