

Oregon Islands

National Wildlife Refuge

2 *windswept headlands*

372 *wilderness acres*

1,853 *coastal islands*

1,000,000+ *nesting seabirds*

Experience the Refuge

Oregon Islands National Wildlife Refuge protects the offshore islands, sea stacks, reefs, and two unique headlands along the spectacular Oregon coast. Listed here are some of the best places to experience the refuge. Visit in every season for a different view.

● Haystack Rock

● Cape Meares & Three Arch Rocks NWRs

Rashid Mannan

Haystack Rock, Cannon Beach

Spring welcomes the return of seabirds and pupping harbor seals.

Summer is raucous with the sounds of marine wildlife rearing young.

● Yaquina Head Outstanding Natural Area

Lila Bowen USFWS

Yaquina Head, Newport

Fall brings the return of migratory shorebirds and waterfowl.

● Seal Rock State Park

● Heceta Head State Scenic Viewpoint

● Cape Arago State Park

Susan Dimock

Coquille Point, Bandon

Winter winds and stormy seas host gray whales, sea lions, and sea ducks.

● Coquille Point

● Cape Blanco State Park

Much of the refuge is designated National Wilderness, valued and managed for its untrammeled, undeveloped, natural and primitive characteristics.

● Samuel H. Boardman State Scenic Corridor

● Harris Beach State Park

All rocks, reefs and islands of Oregon Islands National Wildlife Refuge are closed to the public at all times. Human-caused disturbance of seabirds and marine mammals is prohibited by federal laws.
