Wilderness Fire Symposium. Nov. 15-18, 1983. University of Montana, University Center, Missoula, Montana. "A Workshop and Symposium of Fire Management Policy, Programs, and Issues in Parks, Wildernesses, and other Natural Areas. Contact: Center for continuing Education: (406) 243-2900.

NOTE:[Both of the above conferences will be very pertinent to the Parks and will have speakers from the NPS including the Director.]

Instream Flow Methods, Habitat Evaluation Procedures and Computer Assisted Resource Management. 1984 Training Schedule. Colorado State University, Department of Conferences and Institutes and the U.S. Fish and Wildlife Service, Western Energy and Land Use Team. Contact: Helen White/Caroline Frye, Conferences and Institutes, Colorado State University, Fort Collins, CO 80523 (303) 491-5222. Call or write for brochure describing the courses.

Computer Workshop: Uses in Fish and Wildlife Conservation. Dec 5-7, 1983. Virginia Polytechnic Institute and State University, Blacksburg, Va. Contact: Dr. Gerald H. Cross, Dept. of Fisheries and Wildlife Sciences, VPI & SU. Blacksburg, Va. 24061.

MicroComputer Applications for Environmental Interpretation, Aug 23-24, 1983, Oregon State University. Contact: School of Forestry, Conference Assistant, OSU, Corvallis, OR 97331.

Slippery Rock State College in Pennsylvania: the Dept. of Parks and Recreation is offering 12 hours of graduate credit for the completion of the IDP in our Resource Management Trainee programs. For more information contact: Dr. J.W. Shiner, Slippery Rock State College, Slippery Rock, Pa. 16057-9999 or call (412) 794-7837.

Jeff Conner of Canyonlands attended a 4 month Wildlife School in Phoenix, Arizona. Jeff felt the course was very worthwhile and it may be attended in full or in part. For more info contact: Bruce Jones (602) 241-2874 or Jeff Conner (801) 259-7164.

Pest Management in Urban Landscapes, Aug 16-18, WASO. 32 hrs. and Pest Management in Parks with Agricultural Use Permits, Sept. 20-22, 1983, 32 hrs. Contact Mike Ruggerio for info.

**Other:**

Barbara Samora of Cape Cod N.S. offers anyone seeking experience in coastal systems management to contact her. Programs involved are: --monitoring dune migration, --monitoring the effects of ORV's and pedestrians on dunes and beach ecosystems, --protection of nesting tern colonies from ORV's, pedestrians, and feral animals, --monitoring the effects of mosquito control activities (channelization, drainage, larvacide application) on fresh and salt water wetlands. --Monitoring water quality in ponds, rivers, streams, and kettle depressions.

Bruce Freet of Big Cypress N. Preserve visited the DSC Remote Sensing Section for training on the baseline mapping and remote sensing capabilities of this NPS office. He has written an article on his visit and a copy can be obtained from Bruce directly.

**Books:**

Aldrich, Robert D., 1979. Remote Sensing of Wildland Resources: A State of the Art Review. GTR RM-71 Rocky Mtn. Forest and Range Experiment Station, USFS, USDA, 240 W. Prospect St., Fort Collins, Col. 80526.

Natural Resources: Bureaucratic Myths and Environmental Management. Stroup, Richard L. and Baden, Jorn A., 160 p. \$20.00

Water Rights: Scarce Resource Allocation, Bureaucracy, and the Environment. Anderson, Terry L., 320 p., \$32.50.
