

Junior Ranger Family Fun

Are you ready for adventure? It will be like walking back through time when you step into the 900 year old place outside. Keep your eyes, ears, and nose open and get ready to learn about the people, animals, and plants who were here long ago and still today!

Who Sleeps Here?

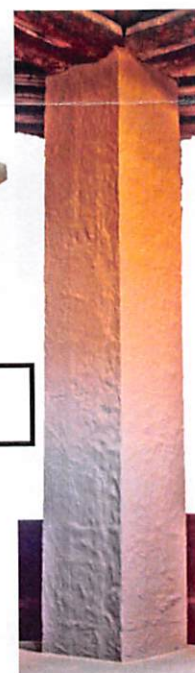

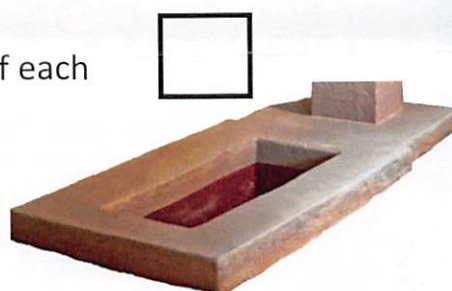

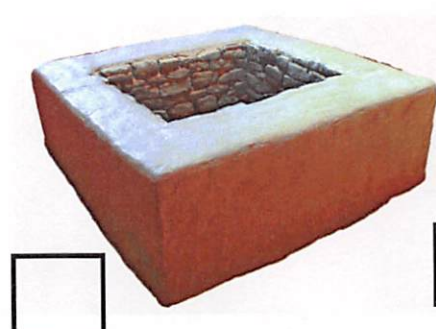

The animals below call this place home. Circle ☐ them if you see them.

Where do they go to get some rest? Match the animal with their habitat.

Building a Great Kiva

Go into the Great Kiva and count how many of each that you see. Put the number in the box.

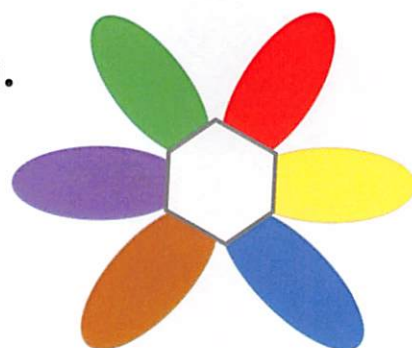

Past Sense Talk together about these things you would have found here years ago. How would you use them? What would you hear? How would they feel?

What colors did you smell? ✓ them.

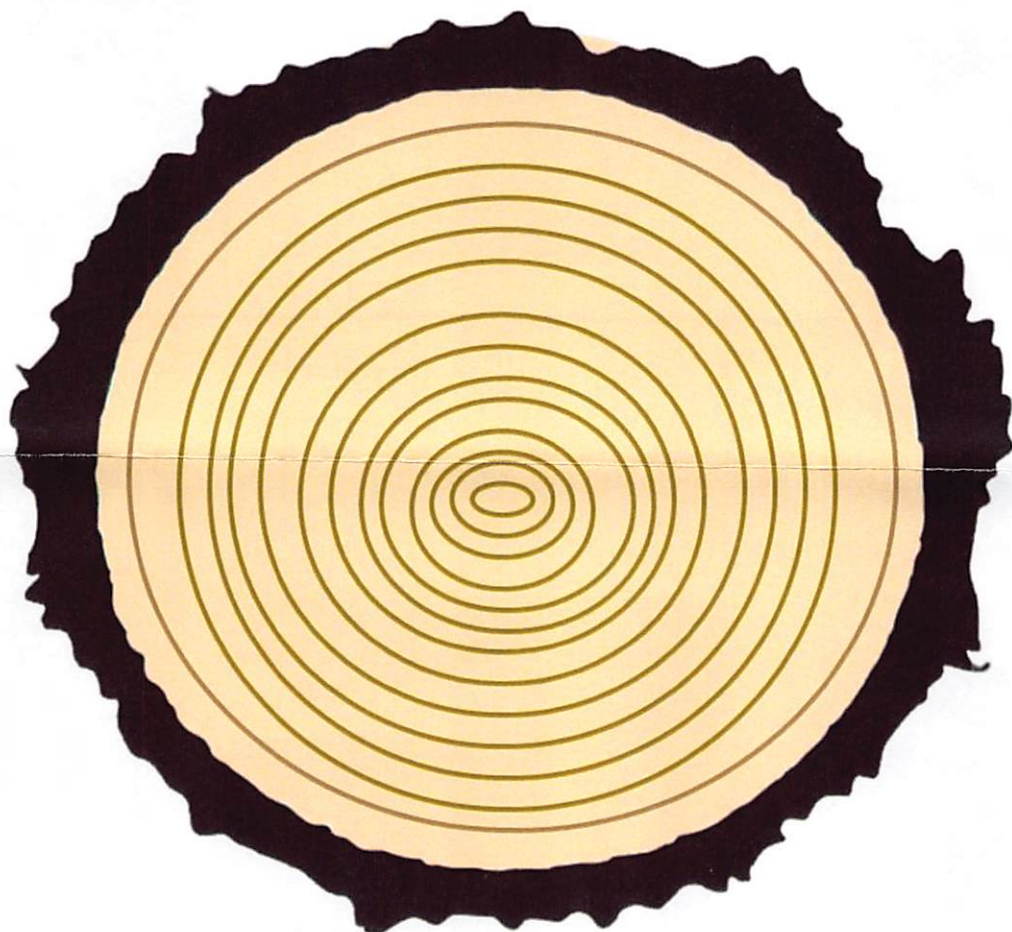

Tell a Ranger, tell a friend, or write your answers.

How many tree rings old are you? You can see this tree is 14 years old.

Count the rings. Have each person put an **X** in the tree ring for the year they were born.

Hint: If you are 1 year old, you would start counting with the largest outer tree ring.

If the grownups want to play, count each ring as 5 years and put a ● in the ring for your age.
