CAPE CANAVERAL LIGHTHOUSE AND SPACE FORCE STATION TOURS

Our amazing 151 foot tall lighthouse is still actively protecting our mariners and coast after 155 years. Over the years, it has evolved from oil lamp, to automation, to electricity and still continues to serve. Since it sits on the Cape Canaveral Space Force Station (CCSFS) property, the public is not allowed to drive on site without an escort, therefore all visits must be booked via our website, several days in advance.

We offer tours for individuals, adult and children's groups of 10 or more, and educational tours for all school aged students. All tours take two to four hours, depending on the tour you select and we offer them several days per week.

Open House for CCSFS badged personnel occurs every Wednesday from 10 am - 1 pm. Hangar C will also be open during these hours.

Once here, you'll get to explore our historical lighthouse and grounds, Keepers Cottage Museum and Gift Shop! Adjacent to the lighthouse grounds, visit Hangar C, where you'll see restored launch systems and rockets on display, some of which can only be seen here. Lastly, you'll get to tour the Cape Canaveral Space Force Museum!
