ESTABLISHING THE EFFIGY MOUNDS NATIONAL

MONUMENT -- IOWA

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA

A PROCLAMATION

WHEREAS the earth mounds in the northeastern part of the State of Iowa known as the Effigy Mounds are of great scientific interest because of the variety of their forms, which include animal effigy, bird effigy, conical, and linear types, illustrative of a significant phase of the mound-building culture of the pre-historic American Indians; and

WITNESS WHEREOF I have hereunto set my hand and cause the seal of the United States to be affixed.

Done at the City of Washington this 25th day of October in the year of our Lord nineteen hundred and forty-nine, and of the Independence of the United States of America the one hundred and seventy-fourth.
